EDUCATIONAL }
DEPARTMENT. } SIR,

I am directed to forward copy of a letter dated 3rd. March, 1892, and of its enclosure, from the Secretary, Lumsden Memorial Fund, Benares, and to inquire whether the Syndicate of the University have any objection to accept the responsibility of awarding the scholarships under the conditions specified by the Committee of subscribers.

I have the honour to be,

SIR,

Your most obedient servant,

H. N. PIKE.

FOR Secretary to Government,

NORTH-WESTERN PROVINCES AND OUDH.

Copy of a letter dated 3rd March, 1892, from the Secretary, Lumsden Memorial Fund, Benares, to the Collector and Magistrate of Benares.

I have the honour to enclose copy of resolution by the Lumsden Memorial Committee of Benares passed on the 11th of February, 1892, and to request the favour of your submitting the same for the sanction of Government under sections 4 and 5 of the Charitable Endowments Acts (VI-1890.)

2. On the 2nd August, 1891, at a public meeting held under the Presidency of H. H. the Maharaja of Benares (copy of the proceedings appended for information) it was resolved in view of the approaching retirement from the service of the Hon'ble J. J. F. Lumsden, Senior member of the Board of Revenue, N.-W. P. and Oudh, who during his long connection with these provinces and more particularly with the Benares Division had endeared himself to all classes, that in order to perpetuate his memory a fund be raised for the purpose of founding a Medal and two scholarships.

3. A subscription has accordingly been raised and Rs (7700) seven thousand and seven hundred only invested in Government Securities.

@ 4 per cent dated the 1st February, 1843, No. $\frac{147569}{088638}$, the income from which will amount to Rs. 308. It has also been resolved to make this over to the Syndicate of the Allahabad University for the following purposes and on the conditions detailed. The Committee desire me to explain that preference was given to the Allahabad University instead of to any local College, first, because it is a new Institution and so deserving of public support and 2ndly, that the benefits of the Endowment might be participated in by students from all parts of the Province which would not have been the case had the gift been made to any local educational Institution.

(a) That a scholarship to be called "Lumsden Sanskrit Scholarship" of Rs. 10 p. m. tenable for two years be given to the student who passes the Intermediate (F. A.) Examination of the Allahabad University (irrespective of the division he passes in) but obtains the highest marks in Sanskrit among those who take that up as their second language on the condition that he continues his studies for the B. A. Examination.

(b) That a second scholarship of Rs. 10 p. m. to be designated the "Lumsden Arabic or Persian Scholarship" also tenable for two years be given to the

student who passes the Intermediate (F. A.) Examination of the Allahabad University (irrespective of the division in which he passes) but obtains the highest marks in Arabic among those who take that up as their second language on the condition that he continues his studies for B. A. Examination.

In the event, however, of no student who takes up Arabic as his 2nd language passing the F. A. Examination in any year, the scholarship to be given on the same conditions to that student who passes the Examination and obtains the highest marks in Persian as his 2nd language.

(c) That a gold medal (value not less than Rs. 50 and not more than Rs. 60) to be called the "Lumsden Medal" be awarded to the student who stands highest in the Law Examination (LL. B.) of the Allahabad University. A die for the medal (drawing enclosed) is being prepared and will be handed over to the Syndicate when ready.

(d) In the event of a student holding either of the scholarships discontinuing his studies, dying, or through misconduct or any other cause being considered by the Syndicate disqualified to hold it, the scholarship to be given to the next best student (of the same year as the student so forfeiting it) who fulfils the requirements laid down in clauses (a) and (b).

(e) As to the award of scholarships one scholarship will be given alternately every year commencing with the "Lumsden Sanskrit Scholarship" in 1893: in every succeeding year two scholarships will thus be running, *e.g.*

A receives the Lumsden Sanskrit Scholarship in 1893 and holds it for that year and 1894; in 1894 B receives the "Lumsden Arabic or Persian Scholarship" and holds it for 1894 and 1895; in 1895 another "Lumsden Sanskrit Scholarship" is given to C; in 1894 and 1895 and succeeding years two scholarships will thus be held as shown below

	1893	1894	1895—1896	and so on.
Sanskrit scholarship	... A.	A.	C.	C.
Arabic scholarship	... Nil	B.	B.	D.

(f). Any surplus that may remain over annually from the Interest receipts after meeting the cost of the scholarships, medal and incidental charges, to be accumulated and invested from time to time in Government securities, and the interest received from this source to be applied at the discretion of the Syndicate to materially increase the value of the scholarships.

The proceedings of a public meeting for the "Lumsden Memorial" held on the 2nd August, 1891.

Gentlemen Present :—

1. H. H. Maharaja Sir Parbhu Narain Singh, Bahadur, K. C. I. E. of Benares,

20. Munshi Raghunandan Pershad, Pleader.
21. Babu Indra Narain Singh, Rais.
22. Goshain Kashi Giri.
23. Mahamahopadhya Pandit Sudhakar Dube.
24. Babu Harshankar Prasad Singh, Talukdar.
25. „ Multan Chand, Banker and Government Treasurer.
26. „ Madhusudan Das, Rais.

1st. Resolution.—Proposed by Raja Shambhu Narain Singh and seconded by Babu Madhusudan Das that H. H. Maharaja Bahadur of Benares be requested to take the chair. H. H. gladly accepted the proposal.

2nd. Babu Promoda Das Mittra in moving the 2nd Resolution fully explained the object of the meeting and after dwelling at great length on the several good qualities of the Hon'ble Mr. J. J. F. Lumsden, Senior Member of the Board of Revenue, N. W. P. and Oudh, (about to retire on pension) such as his extreme geniality of temper, appreciation of merit, regard for nobility, love of justice and respect for right, shewed that since there were few such officials who took great pains in the matter of redressing the grievances of the people and strictly abiding by justice, it was necessary that something must be done to perpetuate the memory of such a man especially at a place where a greater portion of the period of his services was spent.

Rai Shyam Krishna seconded the motion unanimously carried, that a memorial Fund be raised.

3. B. Indra Narain Singh proposed that taking all things into consideration it would be proper to found a gold medal and two scholarships each of Rs. 10 p. m. to be awarded in the Queen's College, Benares. Munshi Madho Lal proposed that a club designated the "Lumsden Club" should be formed. Babu Promoda Das Mittra proposed that an addition should be made to the present College building. On taking the sense of the meeting, it was passed by the majority of votes that as proposed by Babu Indra Narain Singh, a medal and two scholarships be founded.

4. Munshi Rampertap moved and Babu Somnath Bhaduri seconded the resolution that a managing committee should be formed to raise subscription and be composed of the following members.

1. Raja Shambhu Narain Singh, President.
2. Babu Promoda Das Mittra, Member.
3. „ Madho Das do.
4. Munshi Raghunandan Pershad, Member.
5. Babu Shyama Das do.
6. Maulvi Nihal-ud-din Ahmad do.
7. Babu Baleswar Pershad, do.
8. „ Madusudan Das, Secretary.
9. „ Multan Chand, Treasurer.

Unanimously passed.

5. Proposed by M. Raghunandan Pershad seconded by H. Altaf Husain and carried unanimously that the Managing Committee should, after consultation with the Principal of the Queen's College, decide as to the subjects of study and examination for which the scholarships and medal are to be awarded and submit their report to the public meeting.

6. Proposed by Babu Girish Chandra Dey seconded by B. Raghunath Pershad and carried unanimously that the subscription list should be opened.

The meeting was then dissolved after a vote of thanks to the chair.

The Director of Public Instruction proposed that Pandit Bishamber Nath, Maulvi Syed Amjad Ali and the Registrar be appointed the members of a Committee to report to the Syndicate upon the offer of the Lumsden Memorial Fund Committee.

The Principal, Muir Central College, seconded this proposal, and it was carried unanimously.

The Registrar was instructed to reply to the Secretary to Government, N.-W. Provinces and Oudh, that the offer of the Lumsden Memorial Fund Committee has been referred to a select Committee of the Syndicate for consideration of the conditions of the proposed trust.

7. It was resolved unanimously that Maulvi Syed Amjad Ali be paid the usual fees (aggregating Rs. 90) for setting two Entrance Examination question-papers and two Intermediate Examination in Arts question-papers, in consideration of his labours in amending and reconstructing such four question-papers.

8. The Final School Examination Certificates of Miss Georgiana Davidson were laid before the Syndicate, showing that in 1888 she had passed that Examination in all subjects required under Regulation 8 of the Regulations in Arts, with the exception of Mathematics, which girl candidates were not then permitted to take up, and that in 1892 she had passed the same Examination in Mathematics.

The Principal of Canning College proposed that Miss Georgiana Davidson be permitted to matriculate in the University under Regulation 8 of the Regulations in Arts with effect from the 16th July, 1892.

This proposal was seconded by Maulvi Syed Amjad Ali, and was carried unanimously.

9. The Registrar laid before the meeting a new form of application for admission to the Intermediate Examination in Arts, printed in the University Calendar 1892-93, and explained that the new form was necessitated by the bifurcation of that Examination.

The new form was sanctioned unanimously.

10. The Director of Public Instruction proposed that the following clause be added to Resolution 89 of the

Minutes of the Syndicate 1891-92, dated the 7th November, 1891, regarding the recognition of unaided Schools,—
“VII. The Syndicate may refuse to recognise any School that appears to exercise an injurious influence upon discipline, from the non-observance of the Inter-School Rules, or from any other cause.”

This proposal was seconded by the Principal of Canning College, and was carried unanimously.

11. It was resolved that this meeting stand adjourned till 6 P. M. of Tuesday the 2nd August.

J. C. NESFIELD, M. A.,

Chairman.

14. The following proposal regarding the Entrance Examination—

“ That in the first paper the candidate will be expected to explain the meanings of idioms, words, phrases, or sentences occurring in the prescribed Reader and to parse words, phrases, or sentences ; to convert passages from poetry into correct and ordinary prose, without changing words unnecessarily ; to write a brief account of any object, person, place, or event described in the Readers ; to answer questions or series of questions on any subject described or discussed in the Readers ; to explain allusions to Proper names, so far as this may be necessary to the elucidation of the text ; to give the substance of any poem or part of a poem occurring in this course ; and to answer any other questions similar to what have been given hitherto, except that nothing should be asked on Prosody, or on the style of authors, or on the lives of authors, or on remote allusions and proper names ; ”

led to a discussion, and the Syndicate were of opinion that Bye-law XI of the Bye-laws of the Syndicate regarding the appointment of Examiners and subsidiary points ought to be enforced. It was resolved that in future the Registrar inform each Head Examiner in the Entrance Examination “ that the Syndicate particularly desire to draw that Examiner's attention to Bye-law XI ; and that he is requested

to send the Registrar a copy of his instructions to his co-Examiners."

15. The Director of Public Instruction proposed the following motion,—that the first question-paper in English in the Entrance Examination shall contain questions on the text-book, and that the questions shall be of the same kind as heretofore, except that no question shall be set on the style of authors, on the lives of authors, or on *remote* allusions to proper names.

This motion was seconded by the Principal, Muir Central College, and was carried unanimously.

16. Read the following letter from Mr. J. Gall, M. A., late Professor of Physical Science, Canning College, Lucknow, to the Director of Public Instruction, N.-W. Provinces and Oudh.

11, KILMAURS ROAD.

EDINBURGH,

April 29th, 1892.

J. C. NESFIELD, ESQ.

Director of Public Instruction,

N. W. Provinces.

DEAR SIR.

I have heard that instruction in some branches of elementary science will in all probability soon form part of the School Course for the North-Western Provinces. If the Educational Department should find it desirable to introduce a special text-book for teaching this subject, I should be glad if you will give me the opportunity of trying to supply that want.

In making this proposal, I should not expect you to give me any guarantee that you would accept the book until you first had the opportunity of examining its contents to see whether it would be likely to suit your purpose.

In the event of a book such as I have indicated being required, I should be glad if you will let me know the ground which your science course covers, and the subjects which you decide upon introducing.

Yours obediently,

(Sd.) J. GALL.

Resolved—that the Syndicate understand from the Director of Public Instruction that the books intended to be used in Physical Science are already fixed; and that the Registrar reply to the Director of Public Instruction on the subject of Mr. Gall's letter accordingly.

17. Read an application for the affiliation of Woman's College, Lucknow, in Arts up to the Intermediate Standard.

It was resolved that Woman's College, Lucknow, be affiliated in Arts to the University of Allahabad up to the Intermediate Standard, subject to the sanction of the Chancellor. Under Rule 50 of the University Rules this resolution requires to be confirmed at the first meeting of the Syndicate held after the 20th October, before application is made for this sanction.

The Registrar was instructed to reply to the application accordingly.

18. Read the following application for the affiliation in Arts of Christ Church College, Cawnpore, to the University of Allahabad, up to the Intermediate Standard.

It was resolved that Christ Church College, Cawnpore, be affiliated in Arts to the University of Allahabad up to the Intermediate Standard, subject to the sanction of the Chancellor. Under Rule 50 of the University Rules this resolution requires to be confirmed at the first meeting of the Syndicate held after the 20th October, before application is made for this sanction.

The Registrar was instructed to reply to this application accordingly.

19. Read a letter from Munshi Newal Kishore, C. I. E., requesting the patronage of the University to a branch printing, publishing, and bookselling establishment at Allahabad.

It was resolved that the Registrar be instructed to reply to Munshi Newal Kishore to the effect that the University cannot bind itself to employ any particular firm for printing, publishing and bookselling.

20. The Director of Public Instruction proposed—

The Board of Studies in Mathematics be asked to consider whether some newer system of geometry might not be introduced into the matriculation course as a substitute or alternative for Euclid, and if so, what specific proposals they are prepared to make in the subject:—these proposals to reach the Syndicate in time for the November meeting, when the details of the School Final Examination will be disposed of.

This proposal was seconded by the Principal, Queen's College, Benares, and was carried unanimously.

21. Read the following petition from candidates who failed at the Intermediate Examination in Arts held in March, 1892.

To

The Honourable Sir John Edge, Kt. Q. C., Barrister-at-Law, Chief Justice of the High Court of Judicature for the N.-W. Provinces, and Vice-Chancellor of the University of Allahabad.

The humble Memorial of the undermentioned students who failed to pass the last Intermediate Examination of the Allahabad University.

MOST RESPECTFULLY SHEWETH,

1. That out of the 565 candidates who appeared at the above examination 391 have been declared unsuccessful, with the alternative prospect before them of either leaving off their studies in the midst of a promising collegiate career, or, of continuing their studies under conditions which ensure a second failure.

2. That this extraordinarily large number of failures is mainly due to the severe character of the questions set at the examination, is admitted on all hands, the papers in certain subjects being unusually difficult.

3. Unfortunate as your memorialists have been, they have to face, if they elect to prosecute their studies further, the difficulties of an altogether changed

course of studies, there having been introduced this year an A and B course into the Intermediate Examination on the model of that obtaining in the Bachelor of Arts course.

Then as regards the changed curriculum itself, some of the subjects, like *logic* and *conic sections*, which are common to both the A and B courses, are quite new and difficult ; others, like the two new histories of India and England, of more than 700 pages each, are much too voluminous to be more than perfunctorily skimmed through ; while instead of the two Physiographies both treating of the same subject, and second language, as heretofore, new books of Physics and Chemistry have been brought in.

In Sanskrit MaxMuller's Grammar has been substituted for the 40 pages of *Laghu Kaumudi*.

4. Now it would be practically impossible for your memorialists to master all these new and hard subjects within the limited space of six months, and risk the chances of another examination; as they can hardly be able to compete on fair and equal terms with their junior fellow students who will have studied the same for two years.

5. Labouring under all these hardships and disadvantages your humble memorialists have no other course open than to appeal to you deferentially for relief and now beg to approach you with that view, humbly trusting that with your well-known sympathy with the student world, more specially with those unfortunately unsuccessful like themselves under the peculiar circumstances of a rigid and exacting examination, you will be pleased generously to permit them to appear next year only in the subject or subjects in which they have failed and to declare others successful who have failed in the aggregate only. The above prayer of your memorialists is neither a new, nor a peculiar one.

6. Under the special circumstances described above the Allahabad University has already granted concessions like those herein prayed for; and in fact the stringent rule that the result of a public examination is to be held final, has always been ungrudgingly relaxed in exceptional cases like the present.

7. In case, however, the above prayer of your humble memorialists be not granted, they respectfully crave that an order for a Supplementary Examination be graciously passed as other Universities have, from time to time, granted such concessions.

8. Your memorialists submit that when some changes were made in the course of the F. A. Examination of the Calcutta University in 1884, a Supplementary Examination was held at which all the unsuccessful students were allowed to appear.

9. And for the grant of the boon herein solicited your humble memorialists shall as in duty bound ever pray.

The Vice-Chancellor proposed that candidates who failed in the Intermediate Examination in Arts held in March, 1892, be allowed to present themselves for the Intermediate Examination in Arts, 1893, on the same course of study as in 1892, except that the English Literature course be that of 1893; and that this Supplementary Intermediate Examination in Arts in 1893, be held on the same dates as the ordinary Intermediate Examination in Arts of the same year.

The Director of Public Instruction seconded this proposal, and it was carried unanimously.

22. The following course in History for the M. A. Examination of 1894, was appointed on the recommendation of the Board of Studies in History.

FOR THE M. A. EXAMINATION IN HISTORY.

23. It was resolved that the sum of Rs. 21-15-0 be paid in bonuses to compositors, Pressmen and others at the Government Press N.-W. Provinces and Oudh.

JOHN EDGE,

Vice-Chancellor.

ARCHIBALD E. GOUGH, M. A.,

Registrar.

MINUTES OF THE FACULTY OF ARTS. FOR THE YEAR 1892-93.

No. 1.

THE 1ST NOVEMBER, 1892.

Members Present.

THE DIRECTOR OF PUBLIC INSTRUCTION *in the chair.*

THE PRINCIPAL OF MUIR CENTRAL COLLEGE.	MR. A. THOMSON.
THE PRINCIPAL OF QUEEN'S COLLEGE, BENARES.	MR. TH. BECK.
MR. M. J. WHITE.	MR. A. VENIS.
	PANDIT LAKSHMI SANKAR MISRA, RAE BAHADUR.

MAULVI SYED AMJAD ALI.

1. His Colleagues in the Faculty of Arts who were present at this Meeting desired to place on record their deep sympathy with Mr. W. N. Boutflower in the appalling calamity that had recently befallen him; and instructed the Registrar to communicate to Mr. Boutflower this expression of their sympathy.

2. Mr. Beck proposed the following motion,—that in the opinion of the Faculty of Arts the result of the last Intermediate Examination in Arts was not satisfactory.

This motion was seconded by Pandit Lakshmi Sankar Misra, was put to the vote, and rejected by 6 votes to 2.

3. Mr. Beck proposed the following motion,—that the Syndicate be moved to appoint a Committee to examine

the cause of the small percentage of passes in the last Intermediate Examination in Arts as compared with the Examinations of preceding years.

This motion was seconded by Mr. Thomson, was put to the vote, and carried by 5 votes to 4.

4. The Principal of Queen's College, Benares, proposed the following motion,—that Geometrical Conics be removed from the B. A. Examination, as it is already fully treated in the Intermediate Examination in Arts.

This motion was seconded by Mr. Beck, and was carried unanimously.

5. The Principal of Queen's College, Benares, proposed the following motion,—that Analytical Conics be substituted for Geometrical Conics in the B. A. Examination, but not in the Further Course of Mathematics in the B. Course of that Examination.

This motion was seconded by Mr. Thomson.

Pandit Lakshmi Sankar Misra proposed the following amendment,—that Geometrical Optics be substituted for Geometrical Conics in the B. A. Examination, but not in the Further Course of Mathematics in that Examination.

This amendment was seconded by Mr. Venis, and was carried unanimously.

6. The Principal of Queen's College, Benares, proposed that the Syndicate be asked to-morrow to consider whether Mr. Nesfield's High School Grammar or any similar textbook in English Grammar be prescribed for the Entrance Examination.

The Principal of Muir Central College seconded this motion,—and it was put to the vote, and carried by 6 votes to 2.

7. Maulvi Syed Amjad Ali proposed the following motion,—that the following books be omitted from the M. A. Course in Arabic as not procurable in India, and the course being already sufficiently long without these *viz.*—Muqaddamat-i-Ibn-i-Khalidun, Qalāed-ul-Aqyān, Diwan-i-Abu Tammam, Samarat-ul-Auraq; that Muhit-ud-Dair be substituted for Aruz-i-Sakkaki; and that the following books be omitted from the M. A. Course in Persian, as not procurable in India, and the course being already sufficiently long without them, *viz.*—Shash Fatehi, Koth-i-Kangra, Safar-Namahāe Shah Iran, Qasaid-i-Anwari, Diwan-i-Sāib.

The Registrar informed the meeting that this motion, was in accordance with the unanimous recommendation of the whole Board of Studies in Arabic and Persian.

This motion was seconded by Mr. Thomson, and was carried unanimously.

8. Mr. Venis proposed the following motion,—that the Syndicate be moved to appoint a Committee to examine the cause of the small percentage of passes in Philosophy in the last B. A. Examination.

The Principal of Muir Central College seconded this motion, and it was carried unanimously.

9. The Principal of Queen's College, Benares, proposed that the resolutions passed at this meeting be brought before the earliest convenient meeting of the Syndicate. This proposal was duly seconded, and was carried unanimously.

37. It was resolved that Recommendation 16 of the Faculty of Arts recorded on page 111 of the Minutes, 1891-92, be followed by that Faculty in recommending text-books.

38. It was resolved that Recommendation 21 of the Faculty of Arts recorded on page 111 of the Minutes, 1891-92, is accepted.

39. It was resolved that Recommendations 23 and 24 of the Faculty of Arts recorded on page 111 of the Minutes, 1891-92, are accepted for the Examinations of 1894 and following years.

40. It was resolved that Recommendations 26 and 30 recorded on page 112 of the Minutes, 1891-92, are not accepted, as having been found impracticable.

41. It was resolved that notice be sent to the Examiners in Mental and Moral Science in the B. A. Examination of

Resolution 126 of the Syndicate recorded on page 107 of the Minutes of 1891-92.

42. It was resolved that Resolution 138 of the Syndicate recorded on page 109 of the Minutes of 1891-92, be communicated to the Examiners in Persian in the Entrance Examination.

MINUTES OF THE SYNDICATE.

FOR THE YEAR 1892-93.

(*Adjournment.*)

THE 3RD NOVEMBER, 1892.

Present:

THE DIRECTOR OF PUBLIC INSTRUCTION *in the chair.*

THE PRINCIPAL, MUIR CENTRAL
COLLEGE.

THE PRINCIPAL, QUEEN'S COLLEGE,
BENARES.

THE PRINCIPAL, AGRA COLLEGE.

THE PRINCIPAL, CANNING COLLEGE,
LUCKNOW.

THE PRINCIPAL, M. A. O. COLLEGE,
AIGARH.

PANDIT LAKSHMI SANKAR MISRA,
RAE BAHADUR.

MAULVI SYED AMJAD ALI.

43. The Principal of Queen's College, Benares, proposed that Recommendations 13 and 19 of the Faculty of Arts recorded on page 111 of the Minutes, 1891-92, having been accepted by the Syndicate and the Senate, be at once circulated to the Principals of Institutions affiliated in Arts.

The Principal of Muir Central College seconded this proposal, and it was carried unanimously.

44. The Registrar laid before the Meeting an application for the affiliation of Meerut College in Arts to the University of Allahabad up to the Intermediate Standard.

It was resolved that Meerut College is affiliated in Arts up to the Intermediate Standard to the University of Allahabad subject to the sanction of the Chancellor.

45. It was resolved that the following text-books be omitted from the M. A. Course in Arabic, these books not being procurable in India, and the Course being already sufficiently long without them,—*vis.* Muqaddamat-i-Ibn-i-Khalidun, Qaláed-ul-Aqyán, Diwan-i-Abu Tamam, Samarat-ul-Auraq, and that Muhit-ud-Dair be substituted for Aruz-i-Sakkaki; and that the following books be omitted from the M. A. Course in Persian, as not procurable in India and the Course being already sufficiently long without them, *vis.*—Shash Fateh Koth-i-Kangra, Safar-Namaháe Shah Iran, Qasaid-i-Anwari, Diwan-i-Sáib.

46. The Registrar informed the Meeting that further supplies of McCosh's Laws of Discursive Thought are unprocurable.

It was resolved that Archbishop Thomson's Laws of Thought, omitting Part IV and Appendix be appointed a text-book in Logic for the Intermediate Examination in Arts, 1894, alternative with McCosh's Laws of Discursive Thought.

47. The Director of Public Instruction laid before the Meeting the following scheme of a School Final Examination.

FINAL SCHOOL EXAMINATION.

Subjects to be sub-divided under two headings, Compulsory and Optional.

To obtain a certificate a candidate must pass in all the compulsory subjects and in at least one optional.

A.—Compulsory Subjects.

I.—*English* (3 papers)—

The same in all respects as in the Entrance Examination, except that an oral examination [to be held at different centres by the Educational Department or the University(?)] be added as follows :—

- (a) Conversation with the Examiner ;
- (b) Reading aloud with correct pronunciation ;
- (c) Writing a business-letter quickly from dictation ;
- (d) Writing slowly from dictation, as a test of spelling and penmanship.

II.—*Mathematics* (2 papers)—

The same in all respects as in the Entrance Examination.

III.—*History and Geography* (2 papers)—

The same in all respects as in the Entrance Examination.

IV.—*Urdu* (1 paper)—

To write an original letter with the proper forms of address; to translate from English to Urdu; to transliterate from Shikasta to Nastaliq, or *Nāgri*, (?)

B.—Optional Subjects.

1. Drawing.
2. Physics and Chemistry ; as in the Physics Primer by Balfour Stewart, and the Chemistry Primer by Roscoe.
3. Agriculture with Surveying.
4. Book-keeping.

5. Political Economy.

N. B.—A separate certificate to be given, called the Final School Certificate. The certificate to be accepted as equivalent to an Entrance certificate.

The following Resolutions were thereupon passed unanimously, with the exception of Resolution (12) which was carried with one dissentient vote.

(1). That an Examination be instituted by the University, to be called the School Final Examination, and to be held at the same time and places as the Entrance Examination.

(2). That the inclusion of the text-book in English of the Entrance Examination in the English course of the School Final Examination will conduce to the reality and practical character of the candidates' knowledge of English.

(3). That in the School Final Examination an oral examination in English as below shall be conducted by the University at the same time and places as the Entrance Examination.

(a). Conversation with the Examiner.

(b). Reading aloud with correct pronunciation.

(c). Writing a business-letter quickly from dictation.

(d). Writing slowly from dictation as a test of spelling and penmanship.

N. B.—With reference to this Resolution the Principal, M. A.O. College, Aligarh, and Maulvi Syed Amjad Ali desire to record their opinion that the oral Examiner should be a person whose mother tongue is English.

(4). That History and Geograpy be included in the School Final Examination, in all respects the same as in the Entrance Examination; and one question in the Geography paper to be in map-drawing.

(5). That Mathematics be included in the School Final Examination, in all respects the same as in the Entrance Examination. That unless Mathematics be compulsory in the School Final Examination the great majority of candidates will choose Mathematics for their optional subject, discarding Drawing or Physical Science with a view to qualify for Matriculation. Nor would candidates be qualified for the B. Course of the Intermediate Examination unless they have previously read this amount of Mathematics. The University already insists on Mathematics in the Certificate for European Schools, under Regulation 8 of the Regulations in Arts.

(6). That one paper in Urdu be included in the School Final Examination, in which the candidate shall be required (a) to write an original letter on a given subject to a given person with the proper forms of address; (b) to translate from English into Urdu; and (c) to transliterate from Shikasta to Nastaliq; and that as alternative with Urdu there be included a similar test in Nagri omitting item (c).

(7). That in addition to the foregoing compulsory subjects at least one of the following optional subjects shall be required of every candidate in the School Final Examination, as enumerated in the following Resolutions (8), (9), (10), (11), (12).

(8). That Drawing be one of the optional subjects, and that the standard be not defined until further experience has been gained in the working of the drawing-classes lately established in certain Schools.

(9). That Elementary Physics and Chemistry be one of the optional subjects.

(10). That Agriculture with Surveying be one of the optional subjects.

(11). That Book-keeping by Single and Double Entry be one of the optional subjects.

(12). That Political Economy be one of the optional subjects.

N. B.—The Principal, M. A. O. College, Aligarh, desired to record his vote against appointing Political Economy as one of the optional subjects.

(13). That a separate certificate be given to the successful candidates, to be called the School Final Certificate, and that this certificate be accepted by the University as equivalent to an Entrance Certificate.

48. It was resolved unanimously that the Director of Public Instruction be requested to forward the above scheme of a School Final Examination, as embodied in the Resolutions recorded in Minute 47 of this Meeting, to Government for approval.

49. It was resolved unanimously that Meerut be appointed a Centre for the Entrance Examination and the Intermediate Examination in Arts with effect from 1893.

50. It was resolved that one question in map-drawing be included in the question-paper in Geography in the Entrance Examination with effect from 1894.

51. The Officiating Director of Public Instruction proposed the following motion,—that for Regulation 8 of the Regulations in Arts, the following Regulation be substituted.

“The Syndicate may accept the ordinary certificate of the Final Examination prescribed for European Schools as equivalent to the Entrance Examination of the University, provided (1) that the candidate has passed that examina-

tion in the compulsory courses of English, Arithmetic and Mathematics, (2) that the Department of Public Instruction satisfy the Syndicate that the same examination is conducted in an efficient manner and maintained at a standard not inferior to that of Entrance Examination."

The Principal, Muir Central College, seconded this motion, and it was carried unanimously.

52. The Registrar informed the Syndicate that it was necessary to appoint Moderators for the Examinations in Arts of 1893; but that last year it was found impracticable for the Board of Moderators appointed under Bye-law VIII of the Bye-laws of the Syndicate properly to inspect and amend the question-papers, the out-station members being called away by their duties elsewhere; and that the Registrar could not answer for the safety of the Examinations unless such members were ready to be present at any such date as he should call upon them to attend. See Resolution of the Syndicate No. 155 dated the 13th January, 1892, (Minutes, page 146).

It was hereupon resolved that the following Moderators be appointed, as being all resident in Allahabad :—

In *English, Philosophy, Logic, and Sanskrit*,
The Principal of Muir Central College.

In *Mathematics*, Mr. H. Cox, M. A.

In *Physics, Chemistry, and Physiography*, Mr. J.
Murray, M. A.

In *History*, Mr. Goodrich, M. A.

In *Arabic and Persian*, Maulvi Syed Amjad Ali, M.A.

53. Read a letter from the Hon'ble G. T. Spankie, Barrister-at-Law, Honorary Secretary, Jubilee Trust Fund, Allahabad, to the Director of Public Instruction N.-W. Provinces and Oudh, dated the 1st August, 1892, in which he

requests that the bursaries and medals awarded from the Allahabad Jubilee Fund, be presented through the agency of the Registrar of the University of Allahabad, through whom several bursaries have already been presented.

It was resolved that the Registrar is authorised to comply with the request of the Honorary Secretary of the Jubilee Trust Fund, Allahabad.

54. Read a letter from the Secretary to the Carmichael Library, Benares, requesting that that Library may be furnished gratis with copies of the Minutes and Calendars of the University of Allahabad for 1887-88 and following years.

It was resolved that the Syndicate regret that they are unable to comply with the request of the Secretary.

55. Read a letter from the Head Master, Anglo-Bengali Preparatory School, Allahabad, asking that Kshetra Mohan Banerji, a pupil in that School may be allowed to take up English composition instead of translation from a vernacular in the third paper in English in the Entrance Examination, English being virtually the mother-tongue of Kshetra Mohan Banerji.

It was resolved that Kshetra Mohan Banerji be allowed to take up English composition.

56. The Registrar inquired whether the Cambridge University Junior Local Certificate should be accepted as equivalent to the Entrance Certificate of the University of Allahabad.

It was resolved that the Cambridge University Junior Local Certificate cannot be so accepted.

57. Read a letter from Hari Prasad Vidyant, student M. A. Class, Canning College, Lucknow, forwarded by the Principal of Canning College, asking for permission to appear in the M. A. Examination of both this University and the University of Calcutta.

It was resolved that as a special case, not to form a precedent, and to enable him to compete for the Prem Chand Roy Chand Studentship in the University of Calcutta, Hari Prasad Vidyant's application may be recommended to the Registrar of the University of Calcutta.

58. The Registrar took the instructions of the Syndicate as to what is to be done with the answer-papers of the last Academical year's Examinations, under Bye-law XVI of the Bye-laws of the Syndicate.

It was resolved that the Registrar is instructed to destroy the answer-books in any way he may think fit.

59. It was resolved that the Faculty of Arts be requested to prepare a list of text-books for the Examinations in Arts, including the Entrance Examination of 1895, for recommendation to the Syndicate.

71. Read the following letter from Babu Charu Chandra Ghose, Head Clerk, Office of Registrar, University of Allahabad :—

To

THE PRINCIPAL, MUIR CENTRAL COLLEGE,
ALLAHABAD.

Dated Allahabad, the 10th November, 1892.

MOST RESPECTED SIR,

With reference to your endorsement No. 239, dated the 4th November, 1892, forwarding me a copy of the Government Order No. $\frac{5667}{X\ 568}$, dated the 16th October, 1892, Financial Department, in which the Government have conveyed sanction on your kind recommendation to the transfer of my services from the Muir Central College to the University of Allahabad, and permitted me to contribute towards pension under Article 809 (II) of the Civil Service Regulations ; I most submissively beg you will kindly forward my application with your very favourable recommendation to the Registrar, University, Allahabad, to move the Syndicate in my behalf, to order to pay Rs. 6-4-0 (Rupees six and annas four) only, per month from the University Funds, towards my contribution for pension, being the one-eighth of the amount of my assumed pay I received at the Muir Central College, with effect from the date the Accountant-General, N.-W. P. and Oudh, may order me to pay.

This contribution will entitle me to a pension of the amount one-sixth of the present pay I draw from the University if I earn a good service pension.

I further most humbly beg that you will also kindly recommend me to the Registrar to move the Syndicate to pass a resolution in my behalf to the effect, that at the time when I retire from the service, either as invalid or on good service, a pension to be granted to me by the University, supplementing the Government pension, on the average of my last five years' pay to which I shall be then entitled as a special case.

I beg to state that a similar special case has also been made by the Calcutta University.

I remain,

Most respected Sir,

Your Most Obedient Servant,

CHARU CHANDRA GHOSE,

Head Clerk, Office of Registrar, University of Allahabad.

The Vice-Chancellor proposed that the Registrar pay as an addition to Babu Charu Chandra Ghose's salary the sum of six rupees four annas per mensem towards the Babu's contribution to pension.

The Principal of Agra College seconded this proposal, and it was carried unanimously.

72. Read a letter, dated the 18th October from Mr. W. N. Bouflower, Convenor of the Board of Studies in Mathematics, and inclosures.

The Vice-Chancellor proposed that this correspondence be referred to the Faculty of Arts for their recommendation thereon.

This proposal was seconded by Pandit Bishamber Nath and was carried.

73. Read the following letter from Abinash Chandra.
To

THE SYNDICATE, THE UNIVERSITY OF

ALLAHABAD, (THROUGH THE REGISTRAR,

The Allahabad University.)

SIRS,

I most submissively beg to draw your attention to the fact that I appeared in the last Intermediate Examination from the Queen's College, Benares, and was

unsuccessful. My straitened circumstances and physical inability compelled me to leave College and to appear as a teacher. To be entitled to appear in the ensuing Intermediate Examination as a teacher, I wrote, some two months ago, to the Registrar, who in reply informed me that "I cannot appear as a teacher unless I be a teacher of two years' standing."

But the fact that the students in Bengal, who are once unsuccessful, can appear in the F. A. Examination of the Calcutta University being teachers of one year's standing, led me to purchase books immediately after I had been unsuccessful in the Intermediate Examination, and I am still preparing with that hope, to appear in the ensuing Intermediate Examination.

I further beg that you will be kindly disposed to consider that to be a teacher of two years' standing (without any pay often-times) for the unsuccessful candidate is a serious and difficult task.

In fine, I ask the favour (inasmuch as this is a rule of this University for the unsuccessful candidate to be a teacher of two years' standing) of your kindly granting my prayer, by allowing me to appear in the ensuing Intermediate Examination, so that by the grace of you, one year of mine may not be lost consequently.

I have the honour to be,

Sirs,

Your most obedient servant,

ABINASH CHANDRA CHAKROBUTY,

Care of B. RAJONI KANT BANERJI.

DATED, AGASTYA KUND, BENARES CITY : }
The 31st of October, 1892.

The Vice-Chancellor proposed that the Syndicate adhere to their present practice in declining to accept mixed qualification for Examinations.

This proposal was seconded by Maulvi Syed Amjad Ali, and was carried unanimously.

74. Read the following letter from S. K. Nariman, M.D.

VETERINARY COLLEGE, PAREL :

Bombay, 16th September, 1892.

To

THE REGISTRAR,

University of Allahabad.

SIR.

I am a Doctor of Medicine and Bachelor of Science of the Bombay University, and am desirous of appearing for the Master of Arts Examination of the Allahabad University. I passed the Intermediate Examination in Arts in 1884, which included (a) English, (b) Latin, (c) History, (d) Algebra, (e) Geometry and (f) Elementary Physics. The B. Sc. Examination which I passed in 1885, included (a) Statics, (b) Trigonometry, (c) Physics with elements of Hydrostatics and Dynamics, (d) Chemistry, (e) Comparative Anatomy and Zoology, and (f) Animal Physiology.

I was for $2\frac{1}{2}$ years (from January, 1884, to June, 1886) teacher in Chemistry and Medical Jurisprudence at Grant Medical College, Bombay, and since then I have been Assistant Professor in the Bombay Veterinary College.

Thus I have been examined in all the subjects of the Intermediate and B. A. Examinations required by the Allahabad University, except English of B. A., and further have been a teacher for the past nine years. I shall thank you if you will be good enough to lay my case before the Syndicate for special consideration, and inform me whether I am permitted to appear for the M. A. Examination as special case. I shall be happy to pay the fee or fees as would be settled by the Syndicate.

I have the honour to be,

Sir,

Your most obedient servant,

S. K. NARIMAN, M. D.

The Vice-Chancellor proposed that Dr. S. K. Nariman is not qualified under Regulation 34, and, therefore, cannot be admitted to the M. A. Examination.

Mr. A. Strachey seconded this proposal, and it was carried unanimously.

75. Read a letter from Mr. A. W. Ward, M. A., Professor of Physical Science, Canning College, dated the 28th October, 1892, and a letter from Pandit Lakshmi Sankar Misra, Rae Bahadur, dated the 7th December, 1892.

The Vice-Chancellor proposed that these letters be referred to the Faculty of Arts at their next meeting. This proposal was duly seconded, and was carried unanimously.

76. It was resolved unanimously that the following Contingent Bills for the month of November, 1892, are passed.

77. The proposals regarding elections to the Syndicate and the Faculties of Arts and Law, and all other matters to come before the Annual Meeting of the Senate on the 9th January, 1893, were considered. It was resolved that the Agenda Paper for the Annual Meeting of the Senate, 1893, is passed, subject to a correction made at this meeting and subject to the addition of notices of further motions or other matter which may become necessary prior to issue of the notice of that Annual meeting.

78. The Vice-Chancellor proposed that the following motion be brought before the Annual Meeting of the Senate, 1893.

The Principal, Muir Central College, will propose that as regards the B. A. Examination Geometrical Optics he substituted for Geometrical Conics, in clause

(d) of Para. V of the A. Course Regulation 29 of the Regulations in Arts, to take effect from the Examination in 1895.

Mr. A Thomson will second this motion.

This proposal was duly seconded, and was carried unanimously.

79. The following proposals for election to Fellowships, to the Syndicate, and to the Faculties of Arts and Law, to be made at the Annual Meeting of the Senate, 1893, were considered by the Syndicate, under Rule 3 of the University Rules.

To the Syndicate :—Mr. W. N. Boutflower, B. A., Inspector of Schools, and Dr. G. Thibaut, proposed by the Director of Public Instruction seconded by the Principal Muir Central College.

To the Faculty of Arts.

Mr. A. W. Ward, M. A., Professor of Physical Science, Canning College, Lucknow, proposed by Mr. M. J. White, and seconded by the Director of Public Instruction, the 1st November, 1892.

Mr. Homersham Cox, M. A., Professor of Mathematics, Muir Central College, proposed by the Principal, Muir Central College, and seconded by Mr. Th. Beck, the 15th November, 1892.

The Hon'ble Sir Syed Ahmad, proposed by the Principal, Muir Central College, and Seconded by Mr. Homersham Cox, the 22nd November 1892.

Mr. Theodore Beck, proposed by the Principal, Muir Central College, and seconded by Maulvi Syed Amjad Ali, the 22nd November, 1892.

To the Faculty of Law.

Mr. A. Strachey, proposed by the Vice-Chancellor, seconded by the Principal Muir Central College.

The Hon'ble G. E. Knox, and Mr. A. H. S. Reid, proposed by the Vice-Chancellor and seconded by the Principal Muir Central College.

80. It was resolved that Maulvi Abdul Jalil Professor of Arabic and Persian, Queen's College, Benares, be not required to be present at Allahabad to conduct the oral examination of candidates in the M. A. Examination in Persian, but that Syed Amjad Ali is appointed to conduct that oral examination.

81. It was resolved that the sum of Rs. 44-6-9 be granted as a gratuity to certain persons engaged in confidential printing.

82. Read the following letter from Shiva Baluck Bajpai:—

To

THE VICE-CHANCELLOR,

and

THE SYNDICATE, ALLAHABAD UNIVERSITY,

ALLAHABAD.

SIR,

I beg to lay before you the following lines for your perusal.

1. That I was a candidate in the last B. A. Examination from the Muir Central College, and I attended only the 1st day of the examination in as much as I fell sick on that very day and consequently I was unable to attend the remaining examination days.

2. Further I beg to state that I have also attended the College upto November last, but owing to some family disturbances (my father and grand father both being dead all the family and domestic business rests on me) I am unable to attend the College more.

Consequently under the circumstances above mentioned, I beg to ask your favour by way of grace of allowing me to go up in the next B. A. examination, on the following grounds.

1stly. I come under the circumstances mentioned in Para (1) under the category of absentees and not of plucked candidates.

2ndly. I have also attended six months of the academical year and I only require your favour of doing away with the attendance for the rest.

Hoping you will be pleased to grant my application and for this act of kindness I shall ever pray.

I have the honor to be,

Sir,

YOUR MOST OBEDIENT SERVANT,

SHIVA BALUCK BAJPAI,

IVth Year Class,

Muir Central College.

ALLAHABAD:

The 10th December, 1892.

It was resolved that Shiv Bálak Bajpai's application is accepted, and that he be admitted to the B. A. Examination, 1893, on payment of a fresh fee of RS 30.

83. The Vice-Chancellor proposed that this meeting stand adjourned till a date to be notified by the Registrar.

This proposal was seconded by the Principal of Agra College, and was carried unanimously.

JOHN EDGE,

Vice-Chancellor.

ARCHIBALD E. GOUGH, M. A.,

Registrar.

MINUTES OF THE SYNDICATE.

FOR THE YEAR 1892-93.

(Adjournment.)

THE 23RD DECEMBER, 1892.

Present:

THE HON'BLE SYED MAHMOOD, *in the chair.*

MR. T. CONLAN, | MAULVI SYED AMJAD ALI.

THE PRINCIPAL, MUIR CENTRAL COLLEGE.

84. Read a petition from 33 out of 48 candidates in the Examination for the degree of Bachelor of Laws held in November and December, 1892, praying for an allowance of grace marks on the paper on the Law of Evidence and Pleading Civil and Criminal, which was given to the candidates on the 29th November, instead of the 6th December, owing to the indisposition and absence of the Examiner in the Civil Procedure Code and Law of Limitation whose paper was to have been given on the 29th November.

The Registrar informed the Meeting that the Examiner in the Law of Evidence and Pleading Civil and Criminal had already made an allowance of two additional marks on each answer-book, on the request of the Registrar, with the stated intention of reporting this allowance to the Syndicate.

Mr. T. Conlan proposed that the two additional marks granted on each such answer-book by the Examiner be disallowed.

This proposal was seconded by the Hon'ble Syed Mahmood, and was carried unanimously.

85. It was resolved unanimously that the following candidates be recommended to the Senate for the degree of Bachelor of Laws.

86. The Hon'ble Syed Mahmood proposed that the Faculty of Laws be requested to consider whether any grace marks are to be allowed to candidates who have been duly enrolled as such candidates, and who claim that such marks be allowed to them simply on account of any question-paper in Law being delivered to them sooner or later than they expected in the Examination in which they appeared as candidates.

This proposal was seconded by the Hon'ble T. Conlan, and was carried unanimously.

87. Mr. T. Conlan proposed that it be proposed to the Faculty of Laws for consideration that no guarantee be given to candidates in respect to the order of the question-papers in the LL. B. Examination.

This proposal was seconded by the Hon'ble Syed Mahmood, and was carried unanimously.

The Vice-Chancellor proposed that the Degree of Bachelor of Laws be conferred upon these candidates, under section 15 of the Allahabad University Act.

This proposal was seconded by the Hon'ble W. Tyrrell, and was carried unanimously.

10. The Director of Public Instruction proposed that the following Regulation be substituted for Regulation 8 of the Regulations in Arts.

"The Syndicate may accept the ordinary certificate of the Final Examination prescribed for European Schools as equivalent to the Entrance Examination of the University, provided, (1) that the candidate has passed that examination in the compulsory courses of English, Arithmetic and Mathematics; (2) that the Department of Public Instruction satisfy the Syndicate that the same examination is conducted in an efficient manner and maintained at a standard not inferior to that of Entrance Examination." The Principal of Queen's College, Benares, seconded this motion.

The Vice-Chancellor proposed the following amendment that the following Regulation be substituted for Regulation 8 of the Regulations in Arts.

"The Syndicate may accept the ordinary certificate of the Final Examination prescribed for European Schools as equivalent to the Entrance Examination of the University provided, (1) that the candidate has passed such Final Examination in the compulsory courses of English, Arithmetic, and Mathematics; (2) that the Department of Public Instruction satisfy the Syndicate that the said Final Examination is conducted in an efficient manner and maintained at a standard not inferior to that of the Entrance Examination."

The Director of Public Instruction and the Principal of Queen's College, Benares, accepted this amendment; and it was duly seconded, and carried unanimously.

11. The Registrar laid before the meeting the following Draft Regulations in Arts for a School Final Examination.

DRAFT REGULATIONS IN ARTS.

School Final Examination.

53. A School Final Examination shall be held once in every year at the same time and places as the Entrance Examination. This Examination will be conducted by the University.

54. Such persons may be admitted to this examination as have attended a regular course of instruction at a School recognised by the Syndicate for this purpose for not less than two years. Less than 75 per cent. of attendance shall not be deemed prosecution of a regular course of study.

55. Every candidate for admission to the School Final Examination shall send his application with a certificate in the form entered in Appendix A, to the Registrar. Every such application must reach the office of the Registrar at least six weeks before the date fixed for the commencement of the Examination.

56. Every candidate shall pay a fee of ten rupees to the Registrar. No candidate who fails to pass, or who from sickness or other cause is unable to present himself for examination, shall receive a refund of his fee. A candidate may be admitted to one or more subsequent School Final Examinations on payment of a like fee of ten rupees on each occasion.

57. No candidate who has failed in the School Final Examination shall be admitted to a subsequent School Final Examination unless he has attended a regular course of instruction at a School recognised by the Syndicate for this purpose during the year in which the subsequent Examination may be held. Less than 75 per cent. of attendance shall not be deemed prosecution of a regular course of instruction.

58. The School Final Examination shall be *viva voce* and by printed papers, the same papers being used at every place at which the Examination is held. With the exceptions necessary in a vernacular language every question shall be set and shall be answered in English.

59. At the School Final Examination every candidate shall be examined in the following compulsory subjects:—

- I. English.
- II. History and Geography.
- III. Mathematics.
- IV. Either Urdu or Nagri.

And in not less than one of the following optional subjects:—

- V. Drawing.

- VI. Elementary Physics and Chemistry.
- VII. Agriculture with Surveying.
- VIII. Book-keeping by Single and Double Entry.
- IX. Political Economy.

I. In English the Examination will be the same in all respects as in the Entrance Examination, except that the following oral test will be added to the three papers, *viz.*, (a) Conversation with an Examiner; (b) reading aloud with correct pronunciation; (c) writing a business letter quickly from dictation; (d) writing slowly from dictation, as a test of spelling and penmanship.

II. & III. In History and Geography and in Mathematics the Examination will be the same in all respects as in the Entrance Examination.

IV. One paper will be set in Urdu in which the candidate shall be required (a) to write an original letter on a given subject to a given person with the proper forms of address; (b) to translate from English into Urdu; (c) to transliterate from Shikasta to Nastaliq. As alternative with Urdu one paper will be set in Nagri, of a similar character to that in Urdu but omitting item (c).

V—IX. In the optional subjects the limits or text-books will be fixed from time to time by the Syndicate. See Appendix B.

60. After the Examination the Syndicate shall publish a list of the candidates who have passed, arranged in three divisions in alphabetical order. Every successful candidate shall receive a certificate in the form entered in Appendix A, to be called the School Final Certificate, and shall be admissible as an undergraduate of the University,

Registrar.

a. The Director of Public Instruction proposed that Draft Regulation 53 be adopted as Regulation 53 of the Regulations in Arts. This proposal was seconded by the Principal of Muir Central College.

The Principal of Queen's College, Benares, proposed the following amendment, that the following Regulation be adopted as Regulation 53 of the Regulations in Arts,—“A School Final Examination shall be held once in every year at the same time as the Entrance Examination, at a centre or centres to be selected by the Syndicate.” This amendment was duly seconded, put to the vote, and negatived. The original motion was carried.

b. The Director of Public Instruction proposed that the following Regulation be adopted as Regulation 54 of the Regulations in Arts.

“54. Such persons may be admitted to this Examination as have attended for not less than two years a course of Instruction at a School recognised by the Syndicate for this purpose. Less than 75 per cent. of attendance from the beginning of the School year up to the latest date for sending in the application shall not be deemed prosecution of such a course of instruction.

The Principal of Muir Central College seconded this proposal. Mr. Beck proposed the following amendment that for the words “Not less than 75 per cent. of attendance” be substituted the words “Not less than 60 per cent. of attendance.” This amendment was not seconded, and therefore dropped.

Mr. W. N. Boutflower proposed the following amendment,—That instead of the proposed Regulation 54 and for Draft Regulations 55, 56, and 57, the following Regulations in Arts be adopted:

"54. Any person, wherever he shall have been educated, may be admitted to the School Final Examination."

"55. Every candidate for admission to the School Final Examination shall send his application, with a certificate in the form entered in Appendix A. to the Registrar. Every such application must reach the Office of the Registrar at least six weeks before the date fixed for the commencement of the Examination."

"56. Each candidate shall pay a fee of ten rupees to the Registrar. No candidate who fails to pass, or who from sickness or other cause is unable to present himself for examination, shall receive a refund of his fee. A candidate may be admitted to one or more subsequent School Final Examinations on payment of a like fee of ten rupees on each occasion." This amendment was duly seconded, and was negatived.

The original proposal was carried.

c. The Director of Public Instruction proposed that Draft Regulation 55 be adopted as Regulation 55 of the Regulations in Arts.

This proposal was seconded by the Principal of Muir Central College, and was carried.

d. The Director of Public Instruction proposed that Draft Regulation 56 be adopted as Regulation 56 of the Regulations in Arts.

This proposal was seconded by the Principal of Muir Central College, and was carried.

e. The Director of Public Instruction proposed that the following Regulation be adopted as Regulation 57 of the Regulations in Arts.

"57. No candidate who has failed in the School Final Examination shall be admitted to a subsequent School

Final Examination unless he has attended a course of instruction at a School recognised by the Syndicate for this purpose during the School year in which the subsequent Examination may be held. Less than 75 per cent. of attendance from the beginning of the School year up to the latest date for sending in the application shall not be deemed prosecution of such a course of instruction."

This proposal was seconded by the Principal of Muir Central College, and was carried.

f. The Director of Public Instruction proposed that Draft Regulation 58 be adopted as Regulation 58 of the Regulations in Arts.

This proposal was seconded by the Principal of Muir Central College, and was carried.

g. The Director of Public Instruction proposed that Draft Regulation 59 be adopted as Regulation 59 of the Regulations in Arts.

This proposal was seconded by the Principal of Muir Central College.

Maulvi Syed Amjad Ali proposed the following amendment, that after the words, "Conversation with an Examiner", be added the words, "whose mother-tongue is English." This amendment was seconded by Mr. Th. Beck, and was negatived.

Mr. W. N. Boutflower proposed the following amendment,—That the following Regulation be adopted as Regulation 59 of the Regulations in Arts:—

59. At the School Final Examination every candidate shall be examined in the following compulsory subjects:—

- I. English.
- II. History and Geography.

III. Mathematics.

IV. Either Urdu or Nagri.

And in not less than one of the following optional subjects :—

V. Drawing.

VI. Elementary Physics and Chemistry.

VII. Agriculture with Surveying.

VIII. Book-keeping by Single and Double Entry.

IX. Political Economy.

X. English Literature and Grammar.

XI. Persian Literature and Grammar.

XII. Sanskrit Literature and Grammar.

XIII. Botany.

I. In English the Examination will include; (a) Conversation with an Examiner; (b) reading aloud with correct pronunciation; (c) writing a business letter quickly from dictation; (d) writing slowly from dictation, as a test of spelling and penmanship.

II. & III. In History and Geography and in Mathematics the Examination will be the same in all respects as in the Entrance Examination.

IV. One paper will be set in Urdu in which the candidate shall be required (a) to write an original letter on a given subject to a given person with the proper forms of address; (b) to translate from English into Urdu; (c) to transliterate from Shikasta to Nastaliq. As alternative with Urdu one paper will be set in Nagri, of a similar character to that in Urdu but omitting item (c).

V—XIII. In the optional subjects the limits or textbooks will be fixed from time to time by the Syndicate. See Appendix B.

This amendment was seconded by Pandit Lakshmi Shankar Misra. After some discussion Mr. W. N. Boutflower withdrew the following portion of Regulation 59 as proposed by him.

- "X. English Literature and Grammar.
- XI. Persian Literature and Grammar.
- XII. Sanskrit Literature and Grammar.
- XIII. Botany."

The amendment thus modified was duly seconded, put to the vote, and negatived.

The Rev. Scott proposed the following amendment that for the words "Either Urdu or Nagri" be substituted the words "Either Urdu or Hindi in the Nagri character." This amendment was accepted by the Director of Public Instruction and the Principal of Muir Central College, was duly seconded, and was carried.

Maulvi Syed Amjad Ali proposed the following amendment,—That the words "(c) to transliterate from Shikasta in Nastaliq" be omitted. This amendment was not seconded, and therefore dropped.

The original proposal of the Director of Public Instruction as verbally corrected by the amendment of the Rev. T. J. Scott was carried.

h. The Director of Public Instruction proposed that Draft Regulation 60 be adopted as Regulation 60 of the Regulations in Arts.

This proposal was seconded by the Principal of Muir Central College.

The Principal of Queen's College, Benares, proposed the following amendment,—That for the words "arranged in three divisions in alphabetical order" be substituted the words "arranged in three divisions; the first division in

order of merit, and the second and third division in alphabetical order." This amendment was accepted by the Director of Public Instruction and the Principal of Muir Central College, was duly seconded, and was carried.

The original proposal of the Director of Public Instruction as modified by the amendment of the Principal of Queen's College, Benares, was carried.

i. It was resolved that the form of application for admission to the School Final Examination is approved, with the exception that in the certificate to accompany that form the words "for not less than——years" be substituted for the words "for not less than two years"; and that the words "or in Hindi in the Nagri character" be substituted for the words "or in Nagri."

It was resolved that Regulations 53 to 61 of the Regulations in Arts as printed in the Allahabad University Calendar of 1892-93 be re-numbered as Regulations 61 to 69.

12. The Director of Public Instruction proposed the following motion,—that Rule 4 of the Rules of the University be altered by substituting the words "first Monday in March" for the words "Second Monday in January."

This motion was seconded by Mr. M. J. White, and was carried *nem. con.*

13. The Registrar informed the Meeting that the Local Government have moved His Excellency the Governor-General in Council to sanction the constitution of a Faculty of Engineering; and that the Senate may be empowered to confer the degrees of Bachelor and Master of Civil Engineering; also that the correspondence, containing this information, was circulated to the Members of the Senate on the 25th July, 1892.

14. Mr. W. N. Boutflower proposed the following, motion,—That in clause (*d*) of paragraph V. of the A. Course, Regulation 29 of the Regulations in Arts, the words "*Geometrical Optics*" be substituted for "*Geometrical Conics*"; and that this change in the A. Course of the B. A. Examination take effect from 1895.

This motion was seconded by Mr. A. Thomson, and was carried unanimously.

JOHN EDGE,

Vice-Chancellor.

ARCHIBALD E. GOUGH, M. A.

Registrar.

Convocation, January 12th, 1893.

The Vice-Chancellor having declared the Convocation opened, the graduates of the year were admitted to their respective degrees in the usual manner. His Honour the Chancellor then addressed the Convocation and said :—

VICE-CHANCELLOR AND GENTLEMEN,—It is with diffidence that I have undertaken the task of addressing you to-day, a task which I would have gladly left in the abler hands of the Vice-Chancellor. I have not wished, however, to depart from the custom of my predecessors; nor am I reluctant to have an opportunity of meeting the governing body of the University with which I have the honour of being officially connected, and of assuring you of my hearty desire to co-operate with you in your important work. This is the fifth Convocation which has been held since the institution of this University. I have come as a stranger and a learner to the work. And I cannot pretend to say anything which is new. But it

may interest you to know how I have been struck with the progress which has been made; progress, I think, which has more than justified the hopes formed five years ago, and for which these Provinces are indebted to your labours, and more especially to those of our Vice-Chancellor and Registrar. In the first place, looking to the students in English Arts Colleges and in the Collegiate classes of Government and Aided Institutions, I find that the number has risen from 414 in 1885-86 to 1,157 in 1891-92. Secondly, the number of candidates for matriculation was 1,417 in 1889: 1,481 in 1890: 1,745 in 1891: and 2,075 in 1892. The number of successful candidates did not rise in the same proportion. 764 passed in 1889, or 53.9 of the candidates. Only 829 or 40 per cent. of the candidates were allowed to pass in 1892. Thirdly, in the Intermediate Examination in Arts, the number of candidates was 328 in 1889: 404 in 1890: 497 in 1891: 565 in 1892. But the number passed was 149, 224, 213 and 174 in those years, respectively; only 30.7 per cent. having succeeded in 1892.

Lastly, for the B. A. degree the candidates have risen from 78 in 1889 to 231 in 1892; the number passed from 49 in 1889 to 118 in 1892. The proportion of passes has fallen in the A. Course from 65 to 52.3, and in the B. Course from 57.1 to 48.6. A very satisfactory sign is the gradual increase in the number of students in the B. or Science Course. There were only 14 candidates and 8 passes in 1889. There were 14 candidates and 11 passes in 1890; 24 candidates and 15 passes in 1891; 37 candidates and 18 passes in 1892. The changes introduced this year, which I shall explain further on, are expected to increase the number of students who will elect for the Science Course.

The progress, however, of an institution such as this, can hardly be observed in five years, or gauged by statistics. Five years are but as a minute in the life of a nation, and can hardly be reckoned as a day in the existence of an University, which, if it lives at all, must partake of the national life. Its success cannot be measured by the number of those who pass its examinations. Its real work must be sought first in its influence on the teaching of the Colleges which are affiliated to it, and afterwards in the intellectual and moral improvement of the people; in the progress of science and of research. These are effects which cannot be made manifest in a few years: not even in many years. When this University begins to furnish the people of these Provinces with wise instructors, with great moral teachers, with learned lawyers, with careful explorers in the realms of science, and with great original engineers, then it will be able to say that the seed which is being sown has borne fruit and that its efforts have not been in vain. Looking at the work before us from this point of view, we must be impressed with the sense both of its great importance and its difficulty. A new institution always has a difficult task before it. It has no traditions to guide it, no beaten path the course of which it is easy to follow. And here in India the task is, from the necessities of the case, one of more than ordinary difficulty. The government of the University must be for some time mainly in the hands of foreigners. The system of teaching, the language in which it is given, as well as most of the subjects which are taught, are foreign and strange to the students and to the people of the county. It is true that we have had the very great advantage of the gathered experience of the older Indian Universities: an advantage always to be gratefully acknowledged in this place. But I venture to think that we and they are still

experimenting. We are still searching for the most perfect methods of using Western knowledge to educate the Indian mind. In every experimental science it is a great advantage to have independent inquirers at work. And as in nature the variations in individuals tend to the production of new and suitable species, so it is with human institutions. I believe this was one of the considerations which led Sir Alfred Lyall and others to advocate a new University for these Provinces. And the result has, I think, already been such as to justify their anticipations. What has been done here in the hope of improvement, and the new departures that have been taken, will be best made clear by considering the objections commonly made to our system of education, and the steps that have been taken to remove admitted defects.

By one party the Universities and Colleges have been accused of flooding the country with half-educated young men who will look nowhere but to the service of Government for employment, whose knowledge is superficial, whose conceit is boundless, who are fluent and turgid in language, but have no accurate conception of the meaning of the words they use or the phrases they repeat. We are told by another party that our education is purely destructive, that the old faiths are being undermined, the old principles and sanctions of morality destroyed and removed, the old courtesy of manners and the traditional reverence for age and authority cast off and thrown away with contempt. I will ask leave to detain you for a few minutes by inquiring how far these accusations are true, and what has been done already in Allahabad to remove their causes. There is no doubt that, in the case of some of the older Universities, the number of men who have taken degrees is in excess of the demand for men of that stamp. In older countries, where society has pro-

gressed with a natural growth, and has not been forced on or bent aside by outside influences, educational institutions have been created to meet the demand for educated men, not merely, or even chiefly, for Government service, but for the service of the public in the learned professions. Many men moreover have pursued learning for its own sake, and more still have sought a liberal education as part of the equipment with which every man should furnish himself, no matter what his vocation, for his journey through life. But in this country, where the impulse has been given chiefly from outside, where education even of the higher kind has been offered to the people almost gratuitously, where the sphere of employment owing to the backward condition of the people is very limited, and where if learning is sought at all for its own sake it is not such learning as our Colleges undertake to teach, there is a distinct danger in creating a class of needy scholars who, without being sufficiently educated to make their own way in the world, are above and in excess of the demands of the only employment open to them. There are two ways in which this danger can be met by those who have the control of education. One is by making College education more expensive and self-supporting, and restricting it to those whose parents can afford to pay for it, and to boys of exceptional merit, who can win scholarships and contribute to the cost of their schooling. As time goes on it may be found expedient to move in this direction. But in the present state of these Provinces, such a step does not appear necessary or desirable. The other way is by varying the courses of study so as to enable the students, while obtaining a good general education, to qualify themselves for various walks of life.

Now, gentlemen, in the year just ended, the Senate has made a distinct and original advance in this direction.

Important changes have been made in the course of instruction in schools, whether terminating in the schools or preparatory to matriculation in the University. Modifications have also been made in the Examinations in Arts, subsequent to matriculation, which will take effect partly in 1893 and partly in 1894.

As regards the course of studies apart from or previous to matriculation, the greatest change is the institution of a School Final Examination, to be conducted and certified by the University. This examination is intended to be of a more practical character than the existing Entrance or Matriculation Examination, and, as its name imports, to serve as a final test for youths leaving school to enter upon industrial and commercial employment.

It requires a knowledge of English more serviceable for mental discipline, than that required in the Entrance Examination. In mathematics, in history, and in geography, the value of which in the everyday business of life will not be contested, it maintains the same standard as the Entrance Examination. For the knowledge of a classical language it substitutes a searching practical test in the use of a vernacular language of these Provinces, either Urdu or Hindi. Every candidate will be examined in these four subjects; and in addition to these in one or more of the following optional subjects of a practical or technical character, *viz.*, in Drawing, up to a standard which will be defined by the experience gained in the working of the drawing-classes already established in certain schools; in Elementary Physics and Chemistry, special masters in which subjects have been appointed in certain schools; in Agriculture with Surveying, as experience shall prescribe in a School of Agriculture; in Book-keeping by Single and Double Entry; and in Political Economy.

For the ordinary work of life the training thus marked out, the details of which will no doubt require to be reconsidered in the light of practical experience, will be a better preparation than the literary rudiments prescribed in the existing Entrance Examination. This Entrance Examination and the analogous Final Examination prescribed by the Code of Regulations for European Schools in the Department of Public Instruction have hitherto been the only goal towards which the studies of the higher schools in these Provinces have been directed. In future opportunity will be afforded to all to fit their school training to the demands of after-life, be those demands industrial, commercial or professional. And the University will give to each and to every such branch of training that recognition which is known to be prized in the higher schools.

But while the primary end of this School Final Examination is to maintain and test a training for those industrial and commercial pursuits to which the great majority of schoolboys must look forward; a secondary purpose is fully and effectively served, that of fitting those who pass it, to enter the University itself, through the Colleges affiliated to it, especially with a view to further application to physical science and mathematics. The certificate of having passed this examination will qualify for either the Literary (A) or the Scientific (B) Course of discipline in the University; but it is to be expected that nearly all students holding this certificate will choose the Scientific Course in the Intermediate Examination in Arts and the B. A. Examination. Hitherto under the old regulations the Intermediate Examination in Arts has been the same for all candidates. In March 1893 the first examination will be held under the new regulations lately sanctioned, by which one course (the A. Course) is prescribed for candidates preferring a more literary, and another (the B. Course) for those prefer-

ring a more scientific direction of their studies. A thorough course of logical instruction will be required of all alike, as a fitting introduction to the higher literary and philosophical discipline on the one side, and to the higher mathematical and scientific discipline on the other side, for degree of Bachelor of Arts.

The next practical step in this direction will be to create a Faculty of Engineering. This design has long been approved by the Senate, and has been referred to the Government. It is intimately connected with the proposals for bringing the Engineering College at Roorkee under the influence of the Education Department and affiliating it to the University. The delay has been caused by some difficulty in arranging matters with the Military Works Department, which has some interest in the College. When it is carried out, we shall have a thoroughly competent School of Engineering, and I have no doubt that students will seek to obtain degrees in that science from this University. I think I have said enough to show that the Senate has recognised the danger of educating too many students in one groove, and has taken measures to turn their minds at an early stage to a variety of pursuits.

The objection that our system of education tends to make men superficial and conceited is, I think, a reproach which might be brought against a proportion of the students of any University and in any country. It must be remembered that a great many men enter the University and begin the course without ever proceeding to a degree. They are satisfied to obtain a bare qualification for the Government service; they are proud if they can describe themselves as Failed F. A.'s. These men necessarily are very partially educated, and they are, I think, the cause of much of the outcry against our system. They have not even learnt the beginning of knowledge; they have not even "the far-off

touch of wisdom to know that they are not wise." I am inclined to think that the rule which accepts a certificate of having passed the Middle Examination, as a sufficient qualification for Government service, is more to blame than those engaged in education for these results. So far as there are defects in teaching, which give cause for this reproach, the University can apply a remedy, and can act on the Colleges by raising the standard and maintaining the strictness of all examinations. Much can be done to cure pretentious ignorance by insisting that every examinee shall really know the subject in which he asks to be examined. Here, too, I think it can be shown that the Senate has not been idle or unwatchful. The area of the examinations in books or subjects has not been extended, but year by year a fuller knowledge and greater accuracy has been exacted. The Intermediate Examinations in Arts and also the Examinations for Degrees have been conducted with more strictness year by year. The proportion of candidates who have passed has diminished, and a higher standard of efficiency has been upheld on both sides of these examinations.

Turning now to the objections taken to our system of education on account of its destructive or dissolvent effects, I notice that the Philosophy Course has been attacked on this ground more than any other part of the curriculum. That there is some truth in this criticism cannot be denied. But this University has already made efforts to meet it. The Philosophy Course for the B. A. Examination, which in Calcutta has become easier, has been made longer and more difficult in Allahabad; and consists of a series of works of the British Philosophers intended to elucidate the development of Philosophy in Britain. The reproach that the Philosophy Course was a mere question of cram and memory is being removed. The examinations are con-

ducted with increased strictness, and thoroughness is exacted from all candidates, whether they prefer a more literary or a more scientific course of discipline. In several distinct matters this University, then, has made new departures. It has instituted a School Final Examination of a practical kind. It has separated the Science and Literary Courses immediately after matriculation. It has greatly added to the thoroughness of the Philosophy Course ; and lastly, instead of making Honours depend on wider reading, it awards them only for greater accuracy and more profound knowledge of the books and subjects required for a pass.

It is inevitable, however, that a native of India brought suddenly under the influence of Western thought, should undergo great changes in his intellectual and moral nature. Does not education and the acquisition of knowledge work changes in all of us? The first effect of knowledge is undoubtedly destructive. The old faiths and the old beliefs, so far as they will not stand the test of reason, are corroded and worn away, and the student stands like the first man, after he had acquired the knowledge of good and evil, naked and ashamed in his own sight. But the next step is constructive, and the mischief is caused not by education, but by the failure to complete it. Let any one look at the course of study laid down for the students of this University. It is and must be from the nature of the case, the age of the students and the time at their disposal, circumscribed in area ; but I cannot believe that its effect is to change men for the worse. If to bring their minds into contact with some of the best authors, if to introduce them to some of the highest thinkers, and to show them the first beginnings of science : if the effect of this is to impair their manners and to degrade their intellects, then we had better leave them in

ignorance. For my own part, I think the critics in this case have fastened on what is not the result of education, but arises rather from incomplete education and from the transition state through which the country is passing. In nature the state of transition, whether it is seen in the human being or in the brute, in the hobbledehoy or the tadpole, is often unlovely and grotesque. If the knowledge acquired is not superficial or parrot-like, but has been digested and assimilated by the mind, I have no fear for the result. The ancient mind of this country, with its old philosophy, is like a noble piece of sculpture which has lain in the forest until earth and moss have obscured the beauty of its lines. It is the true work of Western education not to change the nature or form of the stone, but to remove the crust and to let the true outline of the work stand out. If the students come to their studies with an open and honest mind, if they labour to understand what they are taught, not only for the sake of a degree and of obtaining a livelihood,—though this is an object which must always be before them,—but also, to some extent at least, as a means of making themselves happier and better and more useful to their fellows, I have no fear that the teaching imparted to them under the authority of this University will fail in its results, or that the enemy will find any cause to blaspheme. I do not deny or underrate the defects in an education from which all direct religious teaching must necessarily be absent. Nevertheless, I think, that it is, to say the least, improbable that a course such as is laid down for the instruction of students in the Colleges of this University, pursued under the guidance of good and able men, can have a bad result on the morality of the students.

On one point I can speak with experience. I have had many years' practice in Indian administration, and I am able to bear testimony to the fact that the efficiency of

the administration and its purity, especially in the matter of dispensing justice, has made very great progress; and that this improvement is mainly due to the influence of education, and especially of the higher education of which a knowledge of English and English literature has formed the chief part. Let us then go on with our work in faith in its ultimate success. Another matter in which our system is said to fail is the physical education of the students. Several officers have told me that they do not seek graduates for executive appointments because of their defective physique. And I notice that a native gentleman writing the other day in a Punjab newspaper complains that the course of study entails the sacrifice not only of all the enjoyments of life, but of the source of them all—health. A student, he says, attending a College is distinguishable by his very appearance. The direction or encouragement of physical education is not generally looked upon as within the duties of the Senate of a University. And in England it is for various reasons unnecessary that it should be. But here the habits of the people, the climate, and above all the absence of facilities for outdoor manly sports, are obstacles to physical education, which it needs some organisation to overcome. Much has been done I know by schools and colleges and by the influence of the Education Department to encourage games and manly exercises; and some inter-collegiate competition has been established. A further step might be taken, if not under the instructions yet under the auspices of the University, for establishing an annual competition between the Colleges in cricket, football and athletic sports, the final matches in which should be played at Allahabad. I believe that this would give an impetus to physical education. Those who distinguished themselves would be known; and a graduate who had won his

colours at football or cricket would not find his chances of employment diminished.

Gentlemen, there is one point more on which I wish to speak to you before I close this address, which I fear has already tried your patience. I refer to a new duty which is likely to be imposed on the governing body of this University. You are aware of the Councils Act which was passed last year in Parliament. By its provisions the number of Members in the Legislative Councils of India, including that belonging to these Provinces, has been increased, and power has been given to the Governor-General in Council to frame regulations as to the manner in which persons may be nominated to seats in the Councils. It was intended by the framers of the Act, and was intimated by some of the responsible speakers in Parliament, that these regulations would be so framed as to introduce in some degree the principle of representation into the Councils. The nomination of members, and the final responsibility for such nomination must still rest with the Executive Government, but it is intended to ask certain bodies to recommend persons to be nominated members. Now it is probable that the duty of making one such recommendation will fall to the Senate of the University. I feel it is unnecessary for me to urge upon your consideration the importance of the duty which will thus devolve upon you, especially in the outset of an experiment which by its success or by its failure must have a far-reaching effect on the Government of this great Empire. It is to the University that the Government will look for a representative of the best educated and most thinking classes of the people; and I hope that the gentleman whom you may nominate and whom I shall welcome as my colleague in the Council, will be the first of a succession of representatives of this University in the Legislative

Council of the United Provinces, who shall be distinguished for their wisdom and moderation and for their attention to all matters which concern the good government of the country and the welfare of the people.

To

THE REGISTRAR,

UNIVERSITY OF ALLAHABAD,

Allahabad.

SIR,

In compliance with the request of the Syndicate I have consulted the members of the Board of Mathematical studies as to whether some newer system of Geometry should be introduced into the Matriculation Course as a substitute or alternative for Euclid, in connection with the proposed Final School Examination. The members of the Board are agreed that the standard in Geometry for this Examination should be the same as for the Matriculation Examination, and that it is not desirable to introduce any of the newer systems in place of Euclid. They also recommend that the Geometry to be read for the Entrance Examination should be defined by means of a Syllabus and that it should cover the same ground as the first four books of Euclid; that in order to encourage the acquisition of a more thorough knowledge of the subject than is possible from the study of the text of Euclid only, the Cambridge rule should be adopted, *viz.*, "any proof of a proposition in Geometry shall be admitted which is sound and which does not violate the logical sequence of the propositions as given in Euclid's Elements;" that in order to protect from failure deserving candidates who may not have had the opportunity of reading any other text-book than Euclid, and to secure uniformity as far as possible in the standard of Examination, the following rule should also be laid down for the guidance of Examiners:—

"At least one half of the questions set shall be such as can be answered from the text of Euclid."

If these recommendations are approved of by the Syndicate, the Syllabus proposed by Professor Dutt of Queen's College might be adopted, inserting the word "Elementary," in No. 7, substituting the word "Polygons" for "Figures," in No. 10 to exclude curves, and omitting the words, "&c., &c., miscellaneous problems and theorems" in No. 11, which are vague and would cover questions quite unsuitable for an Entrance Examination. I may add that the medians, the orthocentre and the pedal triangle are fully explained in all modern Editions of Euclid.

The separate opinions of the members of the Board together with two memoranda from Professor Dutt of Benares forwarded by Mr. Wright are enclosed for the perusal of the Syndicate.

I have the honour to be,

Sir,

Your most obedient servant,

W. N. BOUTFLOWER,

*Convener of the Board of Studies in Mathematics,
Camp, Roorkee, October 18th.*

To

THE MEMBERS OF THE BOARD OF STUDIES IN MATHEMATICS,

University of Allahabad.

GENTLEMEN,

I have the honour to invite your attention to a resolution passed by the Syndicate at their adjourned meeting on the second of August, that the Board of Studies in Mathematics be asked to consider whether some newer system of Geometry might not be introduced into the Matriculation course as a substitute or alternative for Euclid, and if so, what specific proposals they are prepared to make on the subject. I do not recommend the substitution of any of the newer systems of Geometry in place of Euclid, but I think that students should be encouraged as far as possible to master the new methods of proof and the supplementary propositions which are to be found in modern works of Geometry. It must, I think, be admitted that Euclid by itself is not an adequate text-book in Geometry, for any one who wishes to adopt the profession of Engineer, Architect, or Surveyor, and that some further knowledge of the Science of Geometrical relations and of the art of solving Geometrical problems is required. Some important propositions are omitted, area of triangle in terms of its base and altitudes, intersection of its medians, &c.; others are assumed which should be proved, equality of sides of equal squares, intersection of circles in 1., and others; and the problems given are much too few to be of any practical use; lastly, the arrangement of the matter does not tend itself to the object which the modern teacher of Geometry has in view, *viz.*, the development in his pupils of the faculty of apprehending readily geometrical relations. I think that this can only be effected by a thorough analysis of the different geometrical magnitudes in turn, and that the frequent transfer of the attention from magnitudes of one kind to those of another which is required in the student of Euclid is distinctly disadvantageous. It may be admitted that the text of Euclid is a great example of a logically reasoned out theory of Geometry, and that it has subjective value as a mental gymnastic for a certain class of minds. Its form however renders it undigestible by other minds not so constituted, and it is inadequate for the purposes for which we in this country require a text-book in Geometry.

If you are disposed to agree with me that it is desirable that students should be encouraged to read somewhat beyond the limits of the text of Euclid, I would suggest that our University should define the course in Geometry by means of a syllabus, and adopt the following rule of the University of Cambridge in its Examinations in Geometry, *viz.*, that any proof of the propositions contained in Euclid which is sound shall be admitted, provided it does not violate the logical sequence of the propositions as given in Euclid's Elements.

This, it seems to me, would be a better plan than the prescription of a specified text-book. The great evil of prescribing a particular text-book is that, the majority of teachers and students will not look at anything outside it. The adoption of the above rule would leave teachers free either to take Euclid as their text-book or one of the newer Geometries. If they require advice on the subject they can apply to Inspectors of Schools or to the text-book Committee of their circle.

The syllabus for the Entrance Examination might run as follows :—

Elementary Geometry of the straight line, angles, parallel straight lines, rectilineal figures, circles, relations between squares on straight lines and their segments and rectangles contained by straight lines and their segments as in Euclid Books I.—IV. or other works on Geometry covering the same ground.

The following rule might also be added as a guide post to Examiners, and to ensure the passing of boys who had not had the opportunity of reading any of the newer Geometries:—

“ At least one half of the questions set should be such as can be answered from the text of Euclid.”

It appears to me that some such modification of the existing regulations would act as an inducement to candidates especially to those taking up the B. Course to acquire a more thorough knowledge of Geometry, and at the same time would not be a bar to the success of deserving students who from any cause were obliged to adhere to Euclid as their text-book.

I shall be much obliged if you will favour me with your opinions on the matter that the necessary report may be drafted.

I am, Gentlemen,

Yours faithfully,

W. N. BOUTFLOWER,

Convenor of the Board of Studies in Mathematics.

Please circulated with your opinions in following order.—

W. H. Wright, Esq., Principal Queen's College, Benares.

T. H. Beck, Esq., Principal M. A. O. College, Aligarh.

Pandit Lakshmi Shankar Misra, Rai Bahadur, Inspector of Schools, Benares.

I approve of Mr. Boutflower's suggestions, I attach less importance than he does to the defects of Euclid, and believe that any student who is going to take up a profession involving a more thorough knowledge of Geometry

will be able to supply the deficiencies in his knowledge of geometry after passing the Entrance Examination, and indeed will find it necessary to do so, whatever books may be taught for the Entrance Examination.

The value of Euclid as a discipline of the mind has been well expressed by Professor M. N. Dutt, in his first memo. For this reason I should be sorry to see it supplanted by any book in Modern Geometry. The methods of modern geometry as worked out in Germany, where the subject has been studied much more profoundly than in England, differ so radically from Euclid that any English book we could take would have little prospect of finality and would probably have to give way later on to another treatise standing in the same relation to it, as it does to Euclid.

Hence I think it necessary that it should be settled that, "At least one half of the questions set should be such as can be answered from the text of Euclid."

On the other hand if masters wish to supplement the student's geometrical knowledge with propositions from books on modern geometry, it seems to me a good thing to encourage them to do so, but a bad thing for the University to fix any special text-book, for the master should use his head and not be converted into a machine. A special text-book would involve cram, for the student would mug it up by heart. Hence I agree with Clause 3 of Professor Dutt's second memo., in which he says, no special text-book should be set, and differ from Clause 4 in which he recommends two.

I am opposed to Mr. Wright's suggestion that alternative courses should be put into a Final School Examination, Euclid being the subject of one and Hanuwant Rao's Geometry the subject of the other. We might as well have two text books in the History of England and examinations in both, or three or four alternative lists of text-books in English literature for the Intermediate and B. A. The labour and expense of the Examinations would be increased for no corresponding good.

GEOMETRY AT THE INTERMEDIATE EXAMINATION.

With the Agenda Paper of the Annual Meeting of the Senate on January 11th, 1892, was circulated a paper regarding the proposed Final School Examination, in Para. VI. of which Hanuwant Rao's First Lessons in Elementary Geometry is suggested for the *Compulsory* Subjects. In my opinion this book should be laid down for one of the *Optional* Subjects under

Para. VIII. of the same Paper, and Euclid, Books I,—IV. made compulsory under Para. VI. I consulted our Mathematical Professor, B. Mohendra Nath Dutt, M. A., on the subject of this Book, and he gave me a Memo. which I venture to circulate as the opinion of an able and experienced teacher. On receiving Mr. Boutflower's circular, I asked B. Mohendra Nath Dutt to read the Book very carefully and give me another opinion, as the subject was of increasing importance. He has, accordingly, written a second Memo. which I also append. As I agree in substance with both the Memos., they may be taken as representing my opinion on the subject.

W. H. WRIGHT,

MEMBER OF THE BOARD OF MATHEMATICAL STUDIES.

BENARES COLLEGE :

University of Allahabad.

September 14th, 1892.

P. S.—I highly approve of portions of Hanuwant Rao's Book, being prescribed as an *Optional* at the Final School Examination.

W. H. WRIGHT.

I do not consider it desirable to fix text-books in Geometry for the simple reason that by so doing no freedom of action is left to the teachers, and the students have a tendency to confine themselves to what is given in the text-books. It is a well-known fact that native students are very fond of cramming, which should be discouraged. I perfectly agree with Mr. Boutflower that it is very desirable, rather absolutely necessary, to define the course in Geometry by a syllabus leaving the choice of text-books to the controlling authorities of the Educational Department. In my opinion, the students should be encouraged to acquire a thorough knowledge of modern Methods of Geometry, without altogether ignoring the study of Euclid's system, in order to allow them a free scope for learning such important facts as may be of practical value to them in a professional career. I fully agree with Mr. Boutflower's proposal to make a rule regarding half the questions set to be such as can be answered from the text of Euclid, with a view to ensure the success of such students who may be obliged to adhere to Euclid's system.

To

THE PRINCIPAL.

I have looked through Hanuwant Rao's "First Lessons in Geometry." It is a useful book in its own way and should prove suggestive to the teacher,

who will find in it many facts which, if explained to students, will interest them in the study of Geometry. But I do not consider it a suitable text-book, good enough to replace the lucid text of the old Greek Geometer. Hanuwant Rao's book is divided into 16 chapters, and the Propositions are numbered differently from those of Euclid's. This is an unhappy change, especially if we take into consideration the fact, that it is customary with Mathematicians to quote the number of the Propositions *as given by Euclid* whenever a reference is needed or an authority has to be quoted, *e. g.*, in Geometrical Conics for the Intermediate Examination. Numerous attempts have been made to find an appropriate substitute for the Elements of Euclid, but such attempts, fortunately, have hitherto been made in vain. The advantages attending a *common standard* of reference in such an important subject can hardly be over-estimated, and it is extremely improbable, if Euclid's arrangement were once abandoned, that any agreement would exist as to the author who should replace him. It cannot be denied that defects and difficulties occur in Euclid, and that these become more obvious as we examine the work more closely, but probably during such examination the conviction will grow deeper, that these defects and difficulties are due in a great measure to the nature of the subject itself, and the place it occupies in a course of education ; and it may be readily believed that an equally minute criticism of *any* other work on Geometry would reveal more and graver blemishes.

B. Hanuwant Rao should not have used symbolical language *so early in the Course*. I think it very desirable to defer the introduction of symbols until the beginner has learnt that they can only be properly used in pure Geometry as abbreviations for verbal argument. Slovenly and inaccurate habits are very apt to arise from their employment before this principle is fully recognised.

The formal, if somewhat cumbrous, methods of the Greek Geometer are beautiful models of logical argumentation. In selecting a suitable book of Geometry, we have to keep in mind the fact that a very small proportion of those who study Geometry, and study it with profit, are destined to become Mathematicians in any real sense, and that to a large majority of students, Euclid is intended to serve not so much as a first lesson in mathematical reasoning, as the first (and sometimes the only) model of formal and rigid argument presented in an elementary education.

For these reasons, I should recommend the retention of Euclid's text and arrangement. *Hall and Stevens'* Euclid is an excellent book, and has been adopted by the Calcutta University as a text-book, and I believe it is approved of by our University also.

M. N. DUTT,

Professor.

To

THE PRINCIPAL,

QUEEN'S COLLEGE,

Benares.

In addition to my paper of remarks of the 6th of February, 1892, on the introduction of some newer system of Geometry for the Entrance Examination, I beg to say:—

(i)—That I am not for the substitution of any modern system of Geometry in place of Euclid.

(ii)—That no book which violates the *logical sequence* of the Propositions as given in *Euclid* should be recommended to be read by the students.

(iii)—That no specified text-book be *prescribed*.

(iv)—That a number of approved books may only be *recommended* to be read. I beg to suggest the following:—

(a) "The Harpur Euclid," a most excellent book; it is an Edition of Euclid's Elements revised in accordance with the Reports of the Cambridge Board of Mathematical Studies, and the Oxford Board of the Faculty of Natural Science.

					<i>s. d.</i>	
Price.—Books	I. and II.	2 0	} Published by Messrs Longmans and Green.
	„ III. and IV.	2 0	
	Books I.—IV.	3 6	
	Books V., VI. and XI....	2 0	

(b) Hall and Stevens' Euclid; adopted by the Calcutta University.

(v)—That it is advisable to treat the different geometrical magnitudes *separately, each in its turn*, and I should recommend some such scheme:—

1. Straight Lines, Angles, and Triangles (general properties.)
3. Vertical angles.
3. Right angles.
4. Parallels.
5. Parallelograms.
6. Squares on lines and rectangles contained by lines.
7. Circle, chord properties, tangent properties.
8. Angles in circles.
9. Subdivision of circumference.
10. Inscribed and circumscribed figures.
11. Medians, orthocentre, pedal triangle, &c., &c. Miscellaneous Problems and Theorems.

My remarks of 6th February, 1892, are hereto annexed.

Mr. W. H. Wright proposed that in the Entrance Examination, the course in Geometry shall include the first four books of Euclid with easy deductions, and that at least one-half of the questions set shall be such as can be answered from the text-book of Euclid. This proposal was seconded by the Director of Public Instruction, and was carried.

18. Read the following letter from Mr. A. Thomson.

THE COLLEGE, AGRA.
 30th December, 1892.

MY DEAR GOUGH,

In regard to the Philosophy Course.

I. For the Intermediate Examination. I would suggest that no text-book be prescribed but that a Syllabus of Logic somewhat like the following taken from the London University Calendar, should be adopted and each lecturer left to choose his own text-book.

DEDUCTIVE LOGIC.

First Principles and Laws of Thought, Logical use of Language.
 Terms, Categories, and Predicables, Formal Division and Definition.
 Propositions and their Import, Forms of Immediate Inference.
 Syllogism and other varieties of Formal Reasoning. Fallacies.
 Functions of Syllogism. Trains of Reasoning, Demonstration and Necessary Truth.

II. FOR THE B. A. EXAMINATION.

The course should, I think, be Psychology and Ethics. For Psychology we may go on with Sully—the new edition. In Ethics, I know no work really satisfactory. Perhaps we might continue to use Calderwood. But I would add the Akhlaq Jalali for Persian students and some similar work in Sanskrit to be arranged by Venis, or Thibaut or yourself or all three jointly. It is a loss to our students to be altogether ignorant of oriental attempts to solve philosophical problems.

III. FOR THE M. A.

I would propose the following branches and books.

1. Logic.—Mill's Logic.

Hamiltons XXXV Lectures.

2. Psychology.—Ladd's Elements of Psychology.

3. Ethics.—Aristotle's Nicomachean Ethics,—any good translation.
Martineau's Types of Ethical Theory.

4. Metaphysics.—Mc. Cosh's First and Fundamental Truths.

5. History.—History of Philosophical Speculation from Descartes to
Kant inclusive.6. Politics.—Gibbon chapter XLIV., Austin chapter V., Mill's Represen-
tative Government.

This course would be fairly complete and yet such as could be well mastered in two years.

Yours sincerely,

A. THOMSON.

Mr. A Thomson proposed that no text-book be appointed in Deductive Logic for the Intermediate Examination in Arts, 1895, but that the Syllabus laid down in the above letter be adopted.

This proposal was seconded by Mr. M. J. White, and was carried unanimously, first by the Board of Studies in Philosophy, and then by the Faculty of Arts.

19. Read the following letter from Mr. A. W. Ward.

FROM

A. W. WARD,

Fellow of the University of Allahabad.

TO

A. E. GOUGH, Esq.,

Registrar.

SIR,

I beg you will be good enough, to draw the attention of the Syndicate to a discrepancy in the lists of text-books, prescribed for the M. A. Science Examination, 1893, as published in the Calendars, 91-2, and 92-3. In the

latter a new book is added, *viz*:—Lloyd's Treatise on Magnetism.* This addition within less than 12 months of the examination, is hardly a just one, and I hope will not be insisted on.

The list of books above referred to, also needs further consideration by the Syndicate. The subject of Physics comprises, General Properties of Matter, Heat, Light, Sound, Electricity and Magnetism. Instead of the text-books for the examination including all these subjects, there are only prescribed three books on Heat and three on Electricity and Magnetism, the General Properties of Matter, Light and Sound being completely ignored. Moreover Fourier's Theory of Heat is a most unsuitable book and quite beyond the range of the standard required. It is an advanced Mathematical Treatise suitable for candidates reading for high honours in the third part of the Cambridge Mathematical Tripos.

I have also to draw the attention of the Syndicate to the recent examinations in connection with this subject. A glance at the papers set by Mr. Eliot for the M. A. Physics at once shows that the candidate is supposed to be fairly familiar with Differential Equations, that is, to possess a knowledge of Mathematics sufficient to qualify him to take his M. A. degree in Mathematics. This is surely expecting too much.

Again there seems to have been no Practical Examination at all, though such is prescribed. A paper of questions on a practical book, like Glazebrook and Shaw's Practical Physics, is calculated to make University examinations unpleasantly conspicuous, and I feel sure that it is sufficient to simply draw attention to the urgent need of reform in this matter.

In conclusion, I beg to hope that the Syndicate will see fit to revise the whole of the Regulations for the B. A., and M. A. Science Course, and above all things, will put the practical side of the examination on a much more thorough basis.

I have the honour to be,

to report to the Faculty of Arts on the Regulations for the B. A. and M. A. Examinations, so far as these relate to Physical Science, including Chemistry.—A considerable difficulty arises from the fact that such subjects as Heat, and Scientific Methods, require a knowledge of Differential Calculus and Differential Equations, which have not been studied by the candidates.

This proposal was seconded by Mr. M. J. White, and was carried unanimously.

20. The text-books for the Entrance Examination, 1895, the School Final Examination, 1894-95, the Intermediate Examination, and the B. A. and M. A. Examinations, 1895, were selected by the Boards of Studies and by the Faculty of Arts for recommendation to the Syndicate. See Appendix to Minutes of Meeting of the Syndicate, No. IV. held on the 11th January, 1893.

It was resolved that this meeting stand adjourned till 10 A. M. of Wednesday the 11th January.

21. The Director of Public Instruction proposed that in the English Literature Course of the Intermediate Examination in Arts 1895, Adams's Edition of Murison's First Work in English (Madras, Srinivasa Varada Chari and Co., Triplicane) be introduced, in conformity with Recommendation 14 of the Faculty of Arts, November 21st, 1891; and that this book be used in its practical application for exercise in composition, and not for examination in the text.

This proposal was seconded by the Principal of Muir Central College, and was carried.

22. The Director of Public Instruction proposed that the Convenor of the Board of Studies in Mathematics be asked to report to the Faculty of Arts whether the further Course of Mathematics in the B. Course of the B. A. Examination requires to be lightened, experience having shown that few candidates take it up.

This proposal was seconded by Mr. Homersham Cox, and was carried unanimously.

23. It was resolved that it be recommended to the Syndicate that in the M. A. Course in English Literature 1894, Massey's George the Third be omitted, and that Trevelyan's Selections from the Writings of Macaulay be substituted in its place.

24. It was proposed by Mr. Th. Beck,—

That in future the following procedure be adopted with regard to the selection of text-books :—

That the Convenors of the several Boards of Studies be requested by the Registrar to summon meetings of the said Boards on the Friday or Saturday preceding the Annual Meeting of the Senate: and immediately after the meetings of the Boards to furnish the Registrar with reports as to the text-books or any other recommendation by them defining the courses of study. And that if possible printed copies of these reports be placed before the Meeting of the Faculty of Arts held immediately after the Annual Meeting of the Senate for the selection of text-books.

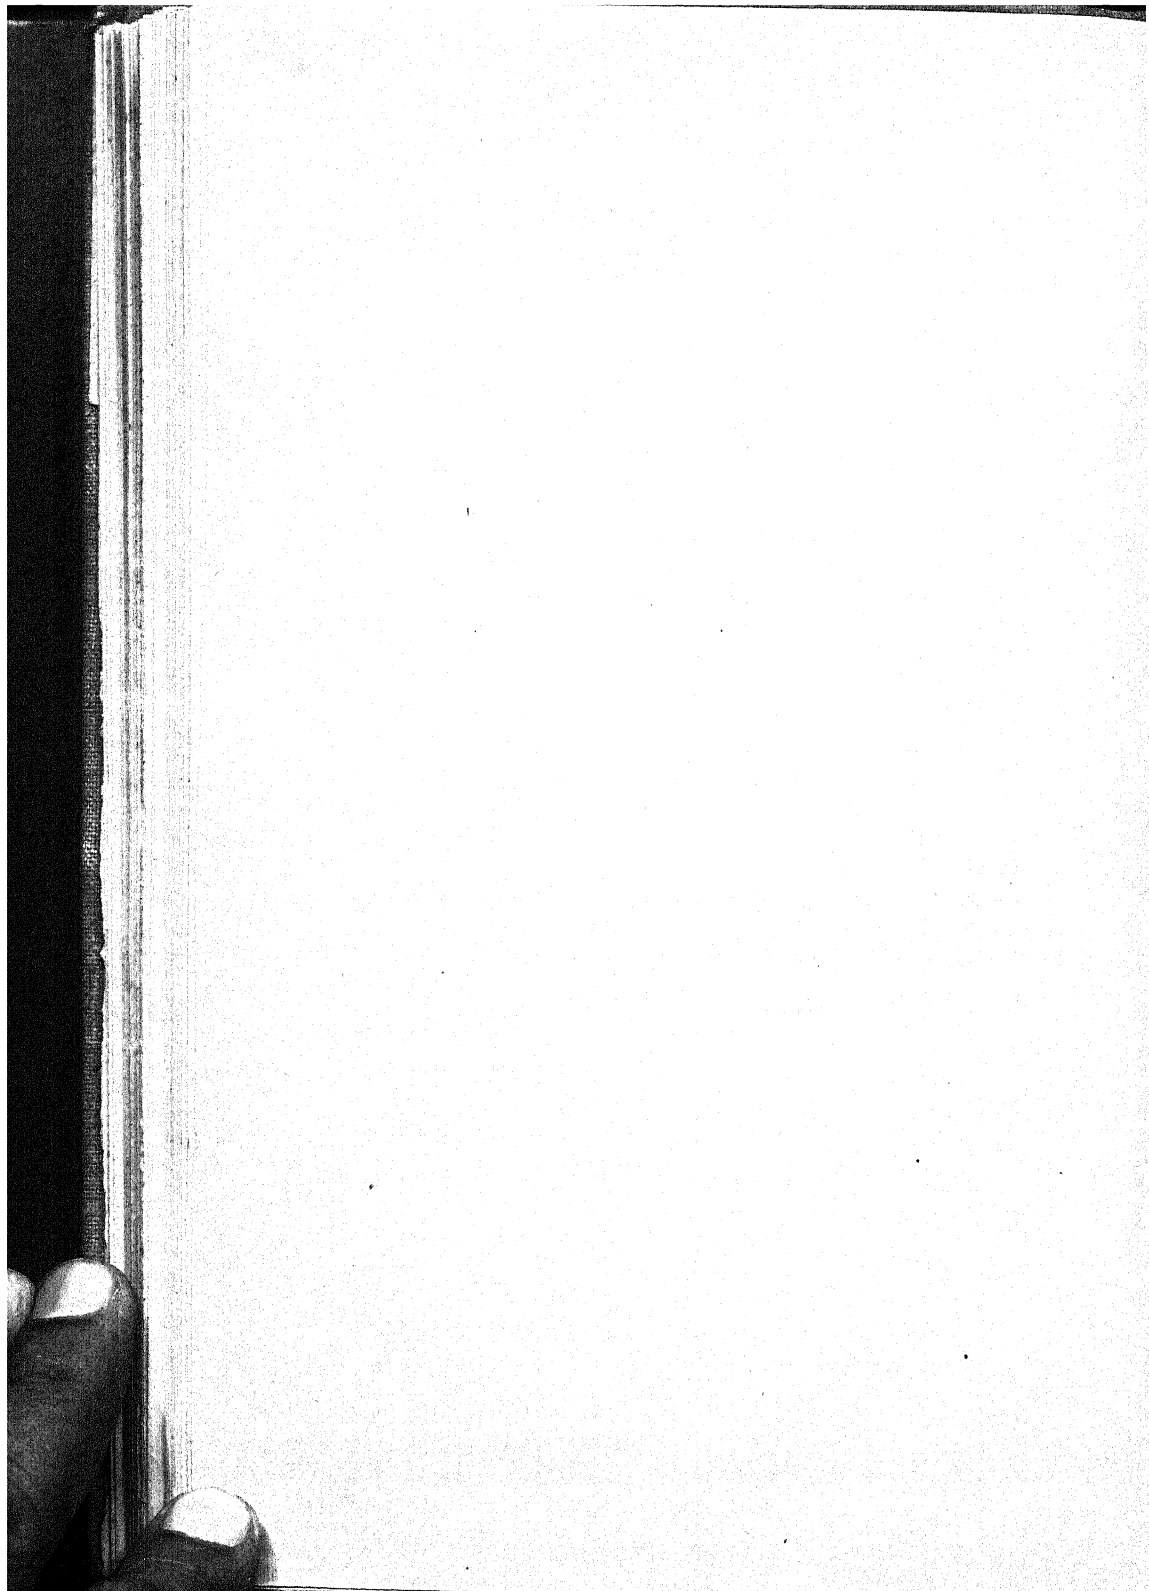

This proposal was seconded by the Director of Public Instruction, and was carried.

95. The Registrar laid before the meeting letter No. 3190-E, dated the 9th December, 1892, from Govern-
III-501-3
ment, relating to forged signatures and personation.

It was resolved that a Sub-Committee be appointed to consider this letter; the Sub-Committee to consist of the Director of Public Instruction, Mr. W. H. Wright, Mr. T. Conlan, and the Registrar.

96. It was resolved that a meeting of the Faculty of Arts be held on Monday the 30th October; and a meeting of the Syndicate on Tuesday the 31st October.

97. Read the following letter from the Principal of Holkar College, Indore.

HOLKAR COLLEGE,

INDORE.

December 12th, 1892.

SIR,

I beg to acknowledge receipt of your memo. No. 1020, for which I am obliged.

At the same time it does not quite give me the assurance I desire I am aware that, at the present time, the Entrance and Intermediate Examinations of your University are held at Indore, but the point upon which I wish to be re-assured is this:—

If the Holkar College affiliates itself to Allahabad University, will the Syndicate guarantee that Indore shall not be discontinued as a centre of Examinations for both the Entrance and Intermediate Examinations.

My reason for asking is simply this: that when the Holkar College was founded in 1892, Indore was a centre for both the Entrance and F. A. Examinations of the Calcutta University.

It has now ceased to be a centre for the F. A., and will probably, next year, cease to be a centre for the Entrance also.

Our students will now have to go a considerable distance to be examined, which, of course, is undesirable.

Under these circumstances I contemplate affiliation to Allahabad but am not prepared to so advise the Maharaja, unless I can give him some assurance that the Allahabad University will not abandon Indore as Calcutta has done.

I am, yours faithfully,

E. C. CHOLMONDELEY,

Principal, Holkar College.

TO THE REGISTRAR, Allahabad University.

The Director of Public Instruction proposed that the Registrar be desired to reply to the Principal of Holkar

College Indore, that Indore is likely to be retained as centre of the Entrance Examination and the Intermediate Examination in Arts as long as the Syndicate find that the superintendence at that Centre is efficient and trustworthy.

This proposal was seconded by Mr. M. J. White, and was carried.

98. Read the following letter.

Copy of letter No. $\frac{T. A. D. I.}{18895}$, dated the 8th December, 1892, from Accountant-General, N.-W. P. and Oudh to the Director of Public Instruction, N.-W. P. and Oudh.

In continuation of this office letter No. $\frac{Pen.}{17936}$, dated 24th November, 1892, I have the honour to request that you will be so good as to cause to be paid into the Allahabad Treasury, at an early date, the sum of Rs. 229-12-0 on account of the pensionary contribution of Babu Charu Chandra Ghose, late clerk in the Muir Central College, Allahabad, whose services have been transferred to the Allahabad University, from 8th November, 1889, to 30th November, 1892, at Rs. 6-4 per mensem being $\frac{1}{2}$ of his assumed pay of Rs. 50 per mensem.

No. $\frac{G.}{3709}$ of 1892-93.

Dated Allahabad, the 15th December, 1892.

Copy forwarded to the Principal, Muir Central College, Allahabad, for compliance.

(Sd.) RAMJI MAL,

Head Assistant,

for Director of Public Instruction.

It was resolved that the sum of Rs. 229-12-3 therein referred to be paid into the Allahabad Treasury and debited to the General Account of the University.

99. The Principal of Queen's College, Benares, proposed that the Examinations in Arts, including the Entrance Examination and the School Final Examination, 1894, be held on Monday the 16th April and following days, from 7 to 10 A. M. daily.

This proposal was seconded by the Principal of Muir Central College, and was carried unanimously.

100. The Registrar laid before the meeting the following report of the Committee appointed to consider the offer of the Lumsden Memorial Fund Committee under resolution 6 of the Syndicate, the 1st August, 1892.

Report of the Committee of the Syndicate appointed to consider the offer of the Lumsden Memorial Fund Committee, under Resolution 6 of the Syndicate at a Meeting held on the 1st August, 1892.

Read a letter from the Secretary to Government in the Educational Department to the Registrar, dated the 10th June, 1892; and a letter from the same to the same, dated the 7th October, 1892.

REPORT.

1. The Committee are in doubt whether, regard being had to the terms of Sections 4 and 5 of the Charitable Endowments Act (Act VI of 1890) referred to in para. 1. of the letter, dated the 3rd March, 1892, from the Secretary, Lumsden Memorial Fund, to the Collector and Magistrate of Benares, the trust can be held by any other person or persons than the Treasurer of Charitable Endowments.

2. The Committee are further in doubt whether Resolution No. 3 of the Lumsden Memorial Committee, the 2nd August, 1891, by which a gold medal and two scholarships of Rs. 10 *per mensem* each were to be awarded in Queen's College, Benares, has or has not been rescinded by a later Resolution of the Committee.

FOR THE YEAR, 1892-93.

No. 5.

THE 13TH MARCH, 1893.

Members Present:

THE HON'BLE THE VICE-CHANCELLOR, *in the chair.*

THE DIRECTOR OF PUBLIC INSTRUCTION.

THE PRINCIPAL OF CANNING COLLEGE.

DR. G. THIBAUT.

MR. T. CONLAN.

MOULVI SYED AMJAD ALI.

THE PRINCIPAL OF MUIR CENTRAL COLLEGE.

102. Read the following letter from Mr. A. Thomson, Principal of Agra College to the Registrar, dated the 19th March 1893.

SIR,

With reference to your notice calling a meeting of the Syndicate for Monday the 13th instant, I beg to point out that it is impossible for me, and I presume for other Principals of Colleges, to attend, as I am required at that time to superintend the University Examinations in Agra. I could not suspend the Examinations for two days without serious inconvenience both to the public and to the University, nor is there, so far as I know, any necessity for having a Meeting of the Syndicate while the examinations are going on. I must therefore protest against any Meeting being held while I am detained in Agra by important University business.

It was ordered that this letter be recorded.

103. The Minutes of the Meeting of the Syndicate held on the 11th January, 1893, were confirmed.

104. It was resolved that in the ordinary bifurcated Intermediate Examination of 1893, the pass-marks in History shall be as in former years, 10 out of 50; that the pass-marks in Trigonometry and Geometrical Conic Sections shall be the same as in History, 10 out of 50; the pass-marks in Logic $12\frac{1}{2}$ out of 50; and the pass-marks in Elementary Physics and Chemistry the same as in History and in Trigonometry and Geometrical Conic Sections, 10 out of 50.

It was resolved further that the subject of pass-marks in the Intermediate Examination in Arts, 1894, and following years shall be considered at an early meeting of the Syndicate; and that a letter from Mr. A. A. Nesbitt, Principal of Bareilly, College on the subject of pass-marks in History in this Examination shall be considered at that meeting.

105. It was resolved that an Examination Committee under Bye-law XIII of the Bye-laws of the Syndicate shall be appointed at a meeting of the Syndicate to be held on some day of the week beginning on the 2nd April, 1893. The Vice-Chancellor authorised the Registrar to convene such meeting.

106. It was resolved that the subject of the languages from which translation may be made in the Third Paper in English at the Intermediate Examination in Arts of 1894 and following years, in conformity with Resolution No. 35 of the Annual Meeting of the Senate, the 11th January, 1892, shall be considered at the meeting of the Syndicate to be held on some day of the week beginning on the 2nd April, 1893.

107. The Registrar reported that two memberships of the Faculty of Arts were vacant under Rule 25 of the University Rules.

The Director of Public Instruction proposed that Mr. A. A. Irwin Nesbitt, M. A., Principal of Bareilly College, and Mr. J. Murray, M. A., Professor of Physical Science, Muir Central College, be appointed to act as Members of the Faculty of Arts until the Annual Meeting of the Senate in 1894, under Rule 27 of the Rules of the University.

The Principal of Muir Central College seconded this proposal, and it was carried unanimously.

109. The Registrar laid before the meeting the following letter from the Principal, Queen's College Benares, Registrar, European Schools Examination.

6th March, 1893.

Letter from Mr. H. More, Deputy Collector, Cawnpur, respecting his Son, John Smith More.

SIR,

I have the honour to forward the above, with the view to its being laid before the next Meeting of the Syndicate for consideration.

2. As will be seen from the enclosed printed List, John Smith More, Serial No. 105, passed in *all the five* compulsory subjects mentioned at the head of the List and also in one Optional subject, Political Economy. Had he passed in one more Optional subject he would have obtained the ordinary Certificate of having passed the Final Examination under Para. II, Page 2

of Director's Circular No. 24 of 1892 (Copy herewith enclosed). This is the Certificate referred to in "Minutes of the Senate," No. 1, dated 9th January, 1893, Page 74. Para. 10.

3. As the Final Standard Examination was held in December, 1892, it would seem that this new Regulation in Arts cannot affect this Examination, but will only come into force in future years. Hence the old Regulation in Arts No. 8 would seem to remain in force. But the difficulty is that the scheme of the Examination in December, 1892, was very much changed, so that the old Regulation 8 does not adequately cover the new scheme of Examination. John Smith More passed in all the subjects laid down in the old Regulation 8 except in Book-keeping, which is now an Optional Subject and is not made Compulsory in the Certificate required by the new Regulation 8. He will not however, receive the Ordinary Certificate and cannot strictly, therefore, be said to have passed the Final Examination.

4. I may add that the scheme of Examination was much altered during the year, and was not finally settled until 28th September, 1892, about 2 months before the Examination itself. Hence, under the circumstances, I strongly recommend that if the Syndicate has the power to do so, they accept an extraordinary Certificate stating that John Smith More has passed in the five Compulsory subjects and one Optional.

5. If this be agreed upon, the same concession should be allowed to Henry Young, Serial No. 47, Francis Brady, Serial No. 68, Thomas Naughton, Serial No. 101, George Dukes, Serial No. 112, and John Edward Murray, Serial No. 114. In my opinion they have passed an Examination in a standard not inferior to that of the Entrance Examination.

CAWNPORE,

2nd March, 1893.

W. H. WRIGHT, Esqr.,

Registrar, European Schools Examinations.

SIR,

I beg to solicit the favour of being informed whether my son John Smith More who has passed the Final Standard Examination for European Schools in all the compulsory subjects plus one optional subject, *viz.*, Political Economy as will be seen from p. 88 of the N.-W. P. Gazette, dated 21st January, 1893, may obtain an Entrance Certificate from the Allahabad University on payment of a fee of 10 Rupees. The lad is anxious to join the Muir College, but as an Entrance certificate is a *sine quâ non* for

admission into that Institution, I am compelled to trouble you with this letter of enquiry.

I am Sir,

Your obedient servant,

H. MORE,

Deputy Collector, Cawnpore.

It was resolved that the candidates referred to in this letter will be qualified for matriculation provided Regulation 8 of the Regulations in Arts passed at the Annual Meeting of the Senate held the 11th January, 1893, be confirmed by the Local Government and sanctioned by the Governor-General in Council.

110. Read a petition from the father of Candidate No. 95, Intermediate Examination in Arts, A. Course 1893, deceased, praying for a refund of the admission-fee of twenty rupees; forwarded and recommended by the Principal of Queen's College, Benares.

It was resolved that the admission-fee be refunded to the petitioner through the Principal of Queen's College, Benares, provided that that Principal certify the death of Candidate No. 95.

111. It was resolved that the Report of the Committee of the Syndicate appointed to consider the offer of the Lumsden Memorial Fund Committee, and the letter of the Secretary to Government, N.-W. Provinces and Oudh, Education Department, in reply thereto, dated the 18th February, 1893, be brought before the next meeting of the Syndicate.

113. It was resolved that the consideration of the pass-marks in the Intermediate Examination in Arts of 1894, and following years shall be postponed.

114. The Vice-Chancellor laid the following letters before the meeting.

No. $\frac{861 \text{ E.}}{\text{III}-507}$ OF 1893.

FROM

THE SECRETARY TO GOVERNMENT,

N.-W. PROVINCES AND OUDH,

TO

THE HON'BLE THE VICE-CHANCELLOR,
ALLAHABAD UNIVERSITY.

Dated Allahabad, 5th April, 1893.

SIR,

I am directed to forward for the information of the Syndicate and for such

action as the University may think proper to take, a copy of a letter addressed in December last to the Director of Public Instruction, Educational Department, conveying through that officer to Mr. Gough the Lieutenant-Governor's wishes regarding Mr. Gough's further tenure of the Registrarship of the University.

2. Should the University on Mr. Gough's retirement at the end of the year elect as its Registrar a gentleman of repute and position, who is not in the public service nor is actively engaged in a profession, and preferably who is a pensioned Government official, the Lieutenant-Governor is willing, with the consent of the University, to assign to him the Registrarship of the Middle English and Middle Vernacular School Examinations, with an allowance of Rs. 200 a month in payment for the work. This arrangement would continue as long as he discharged his duties in connection with these examinations in a satisfactory manner.

3. The Lieutenant-Governor thinks that this may enable the University to obtain a thoroughly competent Registrar, as the total emoluments of the post will thus be raised to Rs. 700 a month. Should the Syndicate decide on advertising for candidates, the intention of the Government may be mentioned in the advertisement.

I have the honour to be

Sir,

Your most obedient servant,

(Sd.) T. W. HOLDERNESS,

Secretary to Government N.-W. Provinces and Oudh.

No. 3327
III 307-1 E OF 1892.

FROM

THE SECRETARY TO GOVERNMENT,

N.-W. PROVINCES AND OUDH,

TO

THE DIRECTOR OF PUBLIC INSTRUCTION,

NORTH-WESTERN PROVINCES AND OUDH.

Dated Allahabad, 22nd December, 1892.

SIR,

I am directed to inform you that the Lieutenant-Governor and Chief Commissioner has had under his consideration the possibility of Mr. Gough, the present Registrar of the University, being proposed for re-election at the next Annual Meeting of the Senate. Sir Charles Crosthwaite is of opinion that there

are objections to his appointment which necessarily makes considerable demands on the time of the occupant, being held for a long term of years by a Government officer occupying the important position of Principal of the Muir College, and he notes that Mr. Gough has been Registrar for five years. Having regard to the ability and success with which Mr. Gough has discharged the duties of Registrar, Sir Charles Crosthwaite does not wish to debar Mr. Gough, in the event of his re-election, from accepting the honour paid him by the University. But he thinks it expedient on public grounds to attach to this permission the stipulation that Mr. Gough retain the appointment for one more year only and that on the expiry of the year, he will voluntarily resign it. I am to request that you will intimate the Lieutenant-Governor's wishes in the matter to Mr. Gough.

I have &c.

(Sd.) T. W. HOLDERNESS,

Secretary to Government North-Western Provinces and Oudh.

(True Copy).

J. N. CASLON,

for Supdt. Govt. Secrett. N.-W. P. and Oudh,

General Department.

It was unanimously resolved that much inconvenience would result from the University being deprived of the services of Mr. Archibald E. Gough as Registrar before the next Annual Meeting of the Senate, which will be held early in March, 1894; and that the Vice-Chancellor be desired to request the permission of His Honour the Lieutenant-Governor to Mr. Gough's continuing to act as Registrar until the Annual Meeting of the Senate in 1894. It was further resolved to settle the form of advertisement for candidates for the Registrarship at the first meeting of the Syndicate to be held after the 20th of October next.

115. The Vice-Chancellor stated his intention of proposing at a meeting of the Syndicate in November the consideration of the approximate dates of the future meetings of the Syndicate.

116. The appointment of an Examination Committee under Bye-law XIII of the Bye-laws of the Syndicate was considered.

The Vice-Chancellor proposed that the elective members of the Examination Committee be the Director of Public Instruction, Dr. G. Thibaut, Pandit Lakshmi Sankar Misra Rai Bahadur, and Mr. A. Thomson.

The Principal of Canning College seconded this proposal and it was carried unanimously.

The Vice-Chancellor proposed that three members of the Examination Committee form a *quorum*, and that the Committee be convened by telegraph or otherwise by the Registrar.

The Principal of Canning College seconded this proposal and it was carried unanimously.

117. It was resolved unanimously that the Syndicate proceed to consider, as a matter of necessity, the languages from which translation may be made in the Third Paper in English in the Intermediate Examination in Arts of 1894, and following years.

The Principal of Muir Central College proposed that the translation in the Third Paper in English in the Intermediate Examination in Arts of 1894, and following years be made from Urdu, Hindi, Bengali, Mahratti, or Gujerati, and that for candidates whose mother-tongue is European there may be substituted a paper in English Composition.

The Director of Public Instruction seconded this proposal, and it was carried unanimously.

118. Read the following letter from Mr. A. Thomson, Principal of Agra College, to the Registrar.

SIR,

I have the honour to report that Daulat Ram, son of Balmukand, Kayasth, a native of the Mathura District, was in the Second Class and Boarding House here till the beginning of January last. On the 23rd of that month he applied for ten days leave, went to the Principal, St. John's College, Agra, called himself a Private Candidate, and got his application signed. I beg to lay these circumstances before the Syndicate ; 1st that Daulat Ram may be dealt with as he deserves for getting his application signed under false pretences ; and 2nd, that notice may be taken of the action of the Principal, St. John's College, in signing applications without ascertaining whether or not the applicants are Private Candidates.

The Vice-Chancellor proposed that the Registrar be instructed to write to the Principal of St. John's College, Agra, to inquire whether Daulat Ram represented himself to be a private candidate or not, and also to write to Daulat Ram to ask him whether he made such a representation; and that the Examiner make a special report in Daulat Ram's case to the Syndicate, not publishing his name, if successful, in the list of successful candidates till the Syndicate has considered this report.

Mr. T. Conlan seconded this proposal, and it was carried unanimously.

119. Read a letter to the Registrar on the subject of the Bengali passage set for translation in the Third Paper in English in the Entrance Examination.

The Vice-Chancellor proposed that this letter be referred to the Examination Committee, and that that Committee take such action upon it as they find suitable.

The Principal of Muir Central College seconded this proposal, and it was carried unanimously.

120. Read the following application for the affiliation of Meerut College in Law up to the LL. B. standard.

From

THE PRESIDENT,

*Divisional College Committee,**Meerut.**To*

THE REGISTRAR,

University of Allahabad.

No. 83.

Dated 6th March.

SIR,

I HAVE the honour to request that you will be so good as to lay before the Syndicate the question of affiliating the Meerut College to the University of Allahabad in Law, up to the LL. B. standard.

2. The working of the College during the first five months of its existence having been thoroughly satisfactory, the Committee felt themselves justified in establishing a Law Class on the 5th January, 1893, to meet the pressing demand for this kind of instruction that began to be made.

3. The scale of fees for joining the Law Class yields an income which already exceeds the expenditure to be incurred by the entertainment of a paid Lecturer; and this source of income will certainly increase considerably. There has always been a keen demand for law instruction in Meerut, and the prospect of development of the present Law Class is well assured.

4. The Committee have appointed for the present, as the Law Lecturer, Mr. Piarey Lal, Barrister-at-Law, of the Inner Temple, who has kindly lent his services to the College as Honorary Lecturer; and his ability and popularity have given the class an excellent start. Fifty names have already been enrolled, and by next year this number will probably be doubled. The Committee will take care that, when they have secured a paid Lecturer, he shall be a man as fully qualified for the work as the present incumbent is.

5. As,—(i.) a Law Department has become a necessary adjunct to every Arts College, as (ii.) the maintenance of Law Classes is a matter of even greater certitude than that of an Arts College,—and as (iii.) the Committee have already stated to you that the Meerut College has in it every element of permanency, they can now safely offer you the assurance that the Law Class they have opened will be maintained on the proposed footing for at least five years.

I have the honour to be,

SIR,

Your most obedient servant,

A. H. HARRINGTON,

President,

DIVISIONAL COLLEGE COMMITTEE,

Fellow University of Allahabad.

Countersigned

W. N. BOUTFLOWER,

A. E. GOUGH.

The Vice-Chancellor proposed that this application stand over till the Meerut College Committee satisfy the Syndicate that a permanent and adequate teaching staff in law has been appointed.

Dr. G. Thibaut seconded this proposal, and it was carried unanimously.

121. Read the following letter from the Secretary to Government N.-W. Provinces and Oudh to the Registrar, dated Allahabad the 28th February, 1893.

SIR,

In reply to your letter No. 113, dated 8th February, 1893, I am directed to say that the Syndicate is only asked to accept the responsibility of awarding the scholarships endowed by the Lumsden Memorial Fund under the conditions specified by the Committee of subscribers, and that the Trust itself will be vested in the usual manner in the Treasurer of Charitable Endowments, North-Western Provinces and Oudh.

2. I am to add that so far as is known in this office there is no ground for supposing that the Lumsden Memorial Committee have in any modified their resolution of the 2nd August, 1891. Any doubtful point can be cleared up in communication with the Commissioner, Benares Division.

The Vice-Chancellor proposed that the Syndicate accept the responsibility of awarding the gold medal and scholarships referred to in the letter dated the 3rd August, 1892, from the Secretary of the Lumsden Memorial Fund, Benares, to the Collector and Magistrate Benares; on the understanding that the gold medal and scholarship are not limited to the students of any particular affiliated College.

This proposal was seconded by the Director of Public Instruction, and was carried unanimously.

SIR,

With reference to the printing of the University Calendar for which we had the honour a few days ago to furnish an estimate to your Head Clerk, and in supersession of our previous letter on the subject, we beg to submit an alternative proposal for your consideration.

From our estimate already submitted you will find the cost to the University for printing the Calendar per copy would be a little over half the published price. What we now want to propose is that we shall be glad if we are allowed to print the Calendar at our own cost and risk on the understanding that the University would take 100 copies of the book at half the published price every year. We agree to sell the Calendar to the University at a little less than the cost price in order to avoid confusion and keep to a fixed rate for ever. We have been led to make this suggestion merely for the prestige which the privilege of printing the Calendar would confer on us, and which as publishers and booksellers of this University, we can in all fairness lay claim to. Moreover, by acceding to our request your office would save itself the trouble of keeping a separate account of the sale of Calendar.

127. It was resolved unanimously that the offer of the Indian Press, University Booksellers, is accepted.

128. Read the following letter from the Director of Public Instruction, North-Western Provinces and Oudh, to the Registrar.

NO. $\frac{G_2}{4}$ OF 1893-94.

FROM

THE DIRECTOR OF PUBLIC INSTRUCTION,

N.-W. PROVINCES AND OUDH.

TO

THE REGISTRAR,

ALLAHABAD UNIVERSITY,

ALLAHABAD.

Dated Allahabad, the 1st April, 1893.

SIR,

I have the honour to request that you will place the following proposal regarding the School Final Examination before the next Meeting of the Syndicate, which is to be held on the 8th instant. The matter is urgent. I am sorry that I could not send it up to you in time to have it included among the printed list of *Agenda*. It may be brought in however under No. 14.

2. My proposal is that candidates for the School Final Examination in 1894 (the first year in which such candidates can appear) may be exempted from examination in the Urdu or Hindi paper; and that candidates may be similarly exempted in the year 1895. The new studies (Physics and Drawing) which are the *differentia* of the School Final were introduced on 1st July, 1892. Nothing was settled at that time about the Urdu or Hindi requirements; and hence the students who elected to take up Physics or Drawing knew nothing about it. Probably, if they had known, they would have chosen differently. The only thing that was told them or in fact could be told them at the time, was that Physics or Drawing could be taken up as an optional for Persian.

3. Now the preparation for the Urdu paper is a serious matter, and it would not be fair to candidates for the School Final Examination in the first two years to compel them to take it up. Proposals are now being made to the Government to add to the Middle English Examination an Urdu course very similar to that which is required for the School Final; and if this comes into force in the year 1894, those who appear for the School Final in 1896, will not have any cause

to complain, if they are compelled to pass in an Urdu paper similar to what they passed two years previously, The case however is very different for candidates of the years 1894 and 1895 ; and unless the exemption now applied for is granted, a blow will be struck at the popularity of the School Final (in which the Government is much interested) at the very time when it most requires to be fostered. This is the rock ahead, which I now ask the Syndicate to help me in removing.

I have the honour to be,

SIR,

Your most obedient servant,

J. C. NESFIELD. M. A.

Director of Public Instruction,

N.-W. P. and Oudh

The Director of Public Instruction proposed that the candidates for the School Final Examination, 1894 and 1895, shall be exempted from the vernacular, that is, from the Urdu or Hindi portion of that Examination.

This proposal was seconded by the Principal of Agra College, and was carried unanimously.

129. The Registrar reported that he had appointed Dr. Thibaut Tabulator in the Examinations in Arts, including the Entrance Examination, 1893.

The Principal of Agra College proposed that the action of the Registrar in appointing Dr. G. Thibaut Tabulator in the Examinations in Arts, including the Entrance Examination, 1893, is approved ; and that the Honorarium of Rs. 300 be paid to the Tabulator in consideration of the increase of work in tabulating.

This proposal was seconded by the Principal of Canning College, and was carried unanimously.

130. Read the following letter from the Principal of Canning College to the Registrar.

According to No. 34 Resolution of the Syndicate, November 2, 1892, the 75 per cent. of failed students of the B. A. Examination will be counted only on the fresh year of attendance. Some candidates were not sent up to the last B. A. Examination on account of their attendance being short of the required amount. Has the honour to enquire if they will come under this rule and if 75 per cent. attendance in the year commencing July 16th, will be sufficient to qualify them as candidates.

M. J. WHITE,

Principal.

It was resolved unanimously that in this and similar cases the 75 per cent. of attendance required under Regulations 10 and 20 of the Regulations in Arts shall be counted on the aggregate of the two years immediately preceding the Examination.

131. Read the following letter from the Principal of Canning College to the Registrar.

Has the honour to forward an application from Shew Shunkar Lal I for a duplicate B. A. diploma and to recommend that the request be granted.

M. J. WHITE,

Principal.

It was ordered that a duplicate certificate, not a duplicate diploma, be granted to the applicant; and that in all cases except this a fee of two rupees shall be charged for a duplicate certificate.

MINUTES—APPENDIX A.

Report of the Committee of the Syndicate appointed to consider the offer of the Lumsden Memorial Fund Committee, under Resolution 6 of the Syndicate at a Meeting held on the 1st August, 1892.

Read a letter from the Secretary to Government in the Educational Department to the Registrar, dated the 10th June, 1892; and a letter from the same to the same, dated the 7th October, 1892. See Appendix.

REPORT.

1. The Committee are in doubt whether, regard being had to the terms of Sections 4 and 5 of the Charitable Endowments Act (Act VI of 1890) referred to in para. 1. of the letter, dated the 3rd March, 1892, from the Secretary, Lumsden Memorial Fund, to the Collector and Magistrate of Benares, the trust can be held by any other person or persons than the Treasurer of Charitable Endowments.

2. The Committee are further in doubt whether Resolution No. 3 of the Lumsden Memorial Committee, the 2nd August, 1891, by which a gold medal and two scholarships of Rs. 10 *per mensem* each were to be awarded in Queen's College, Benares, has or has not been rescinded by a later Resolution of the Committee.

DEPARTMENT. } SIR,

I am directed to forward copy of a letter, dated 3rd March, 1892, and of its enclosure, from the Secretary, Lumsden Memorial Fund, Benares, and to inquire whether the Syndicate of the University have any objection to accept the responsibility of awarding the scholarships under the conditions specified by the Committee of subscribers

I have the honour to be,

SIR,

Your most obedient servant,

(Sd.) H. N. PIKE,

FOR *Secretary to Government*,

NORTH-WESTERN PROVINCES AND OUDH.

Copy of a letter, dated 3rd March, 1892, from the Secretary, Lumsden Memorial Fund, Benares, to the Collector and Magistrate of Benares.

I have the honour to enclose copy of resolution by the Lumsden Memorial Committee of Benares passed on the 11th of February, 1892, and to request the favour of your submitting the same for the sanction of Government under sections 4 and 5 of the Charitable Endowments Act (VI-1890.)

2. On the 2nd August, 1891, at a public meeting held under the Presidency of H. H. the Maharaja of Benares (copy of the proceedings appended for information) it was resolved in view of the approaching retirement from the service of the Hon'ble J.J. F. Lumsden, Senior Member of the Board of Revenue, N.-W. P. and Oudh, who during his long connection with these provinces and more particularly with the Benares Division had endeared himself to all classes, that in order to perpetuate his memory a fund be raised for the purpose of founding a Medal and two Scholarships.

3. A subscription has accordingly been raised and Rs. (7700) seven thousand and seven hundred only invested in Government Securities.

@ 4 per cent. dated the 1st February, 1843, No. $\frac{147569}{088638}$, the income from which will amount to Rs. 308. It has also been resolved to make this over to the Syndicate of the Allahabad University for the following purposes and on the conditions detailed. The Committee desire me to explain that preference was given to the Allahabad University instead of to any local College, first, because it is a new Institution and so deserving of public support and 2ndly, that the benefits of the Endowment might be participated in by students from all parts of the Province which would not have been the case had the gift been made to any local educational Institution.

(a). That a scholarship to be called "Lumsden Sanskrit Scholarship" of Rs. 10 p. m. tenable for two years be given to the student who passes the Intermediate (F. A.) Examination of the Allahabad University (irrespective of the division he passes in) but obtains the highest marks in Sanskrit among those who take that up as their second language on the condition that he continues his studies for the B. A. Examination.

(b). That a second scholarship of Rs. 10 p. m. to be designated the "Lumsden Arabic or Persian Scholarship" also tenable for two years be given to the student who passes the Intermediate (F. A.) Examination of the Allahabad University (irrespective of the division in which he passes) but obtains the highest marks in Arabic among those who take that up as their second language on the condition that he continues his studies for B. A. Examination.

In the event, however, of no student who takes up Arabic as his 2nd language passing the F. A. Examination in any year, the scholarship to be given

on the same conditions to that student who passes the Examination and obtains the highest marks in Persian as his 2nd language.

(c). That a gold medal (value not less than Rs. 50 and not more than Rs. 60) to be called the "Lumsden Medal" be awarded to the student who stands highest in the Law Examination (LL. B.) of the Allahabad University. A die for the medal (drawing enclosed) is being prepared and will be handed over to the Syndicate when ready.

(d). In the event of a student holding either of the scholarships discontinuing his studies, dying, or through misconduct or any other cause being considered by the Syndicate disqualified to hold it, the scholarship to be given to the next best student (of the same year as the student so forfeiting it) who fulfils the requirements laid down in clauses (a) and (b).

(e). As to the award of scholarships one scholarship will be given alternately every year commencing with the "Lumsden Sanskrit Scholarship" in 1893 : in every succeeding year two scholarships will thus be running, *e.g.*

A receives the Lumsden Sanskrit Scholarship in 1893 and holds it for that year and 1894 ; in 1894 B receives the "Lumsden Arabic or Persian Scholarship" and holds it for 1894 and 1895 ; in 1895 another "Lumsden Sanskrit Scholarship" is given to C ; in 1894 and 1895 and succeeding years two scholarships will thus be held as shown below

	1893	1894	1895	1896	and so on.
Sanskrit scholarship	... A.	A.	C.	C.	
Arabic scholarship	... Nil	B.	B.	D.	

(f). Any surplus that may remain over annually from the Interest receipts after meeting the cost of the scholarships, medal and incidental charges, to be accumulated and invested from time to time in Government securities, and the interest received from this source to be applied at the discretion of the Syndicate to materially increase the value of the scholarships.

The proceedings of a public meeting for the "Lumsden Memorial" held on the 2nd August, 1891.

Gentlemen Present :--

1. H. H. Maharaja Sir Parbhu Narain Singh, Bahadur, K. C. I. E. of Benares.
2. Raja Shambhu Narain Singh, Bahadur.
3. M. Madho Lal, Pensioned Sub-Judge and Rais.
4. B. Promoda Das Mittra, Honorary Magistrate and Rais.
5. Rai Shyam Krishna, Honorary Magistrate and Rais.
6. B. Raghunath Pershad, Honorary Magistrate and Rais.
7. B. Madho Das, Honorary Magistrate and Rais.

8. M. Rampertap, Pensioned Tahsildar, Honorary Magistrate and Rais.
9. Rai Baldeo Baksh, Pensioned Deputy Collector, Honorary Magistrate and Rais.

10. Mirza Jamal-ud-din Ahmad, Honorary Magistrate and Rais.

26. Babu Madhusudan Das, Rais.

1st. Resolution.—Proposed by Raja Shambhu Narain Singh and seconded by Babu Madhusudan Das that H. H. Maharaja Bahadur of Benares be requested to take the chair.
H. H. gladly accepted the proposal.

2nd. Babu Promoda Das Mittra in moving the 2nd Resolution fully explained the object of the meeting and after dwelling at great length on the several good qualities of the Hon'ble Mr. J. J. F. Lumsden, Senior Member of the Board of Revenue, N.-W. P. and Oudh, (about to retire on pension) such as his extreme geniality of temper, appreciation of merit, regard for nobility, love of justice and respect for right, shewed that since there were few such officials who took great pains in the matter of redressing the grievances of the people and strictly abiding by justice, it was necessary that something must be done to perpetuate the memory of such a man especially at a place where a greater portion of the period of his services was spent.

Rai Shyam Krishna seconded the motion unanimously carried, that a memorial Fund be raised.

3. B. Indra Narain Singh proposed that taking all things into consideration it would be proper to found a gold medal and two scholarships each of

Rs. 10 p. m. to be awarded in the Queen's College, Benares. Munshi Madho Lal proposed that a club designated the "Lumsden Club" should be formed. Babu Promoda Das Mitra proposed that an addition should be made to the present College building. On taking the sense of the meeting, it was passed by the majority of votes that as proposed by Babu Indra Narain Singh, a medal and two scholarships be founded.

4. Munshi Rampertap moved and Babu Somnath Bhaduri seconded the resolution that a managing committee should be formed to raise subscription and be composed of the following members.

1. Raja Shambhu Narain Singh, President.
2. Babu Promoda Dass Mitra, Member.
3. Babu Madho Dass do.
4. Munshi Raghunandan Pershad, Member.
5. Babu Shyama Das do.
6. Maulvi Nihal-ud-din Ahmad do.
7. Babu Baleswar Pershad, do.
8. Babu Madusudan Das, Secretary.
9. Babu Multan Chand, Treasurer.

Unanimously passed.

5. Proposed by M. Raghunandan Pershad seconded by H. Altaf Husain and carried unanimously that the Managing Committee should, after consultation with the Principal of the Queen's College, decide as to the subjects of study and examination for which the scholarships and medal are to be awarded and submit their report to the public meeting.

6. Proposed by Babu Girish Chandra Dey seconded by B. Raghunath Pershad and carried unanimously that the subscription list should be opened.

The meeting was then dissolved after a vote of thanks to the chair.
